WILLIAM GUY CARR, R.D. COMMANDER R.C.N. (R) RET'D Born: June 2, 1895 Died: October 2, 1959

At the early age of twelve the author was thoroughly indoctrinated into the Bolshevik ideology by two revolutionary missionaries who travelled on the same ship with him out to the Orient in 1907. Unlike many others he didn't swallow the bait they offered him 'Hook, Line, and Sinker.' He decided to keep an open mind, and to investigate matters thoroughly, before reaching any conclusions. His investigations and studies of all angles of the International Conspiracy have taken him to nearly every country in the world.

Commander Carr had a distinguished naval career. During World War One he served as Navigating Officer of H.M. Submarines. In World War Two he was Naval Control Officer for the St. Lawrence; then Staff Officer Operations at Shelbourne, N.S.; then Senior Naval Officer at Goose Bay, Labrador. As an Officer on the staff of Commodore Reginald Brock he organized the 7th Victory Loan for the twenty-two Royal Canadian Naval Training Divisions.

As an author he previously

published the seven books listed above. Some were specially bound for inclusion in The Royal Library, The Library of The Imperial War Museum, and the Sir Millington Drake Library (which is bequeathed to Eton College), and the Braille Library for the Blind. Several of his books have been published in European languages.

Commander Carr is known to many Canadians who have attended his public lectures. He toured Canada for the Canadian Clubs in 1930-31. He warned people of the existence of an International Conspiracy. He foretold that the conspirators would, unless checked, drag the world in another Global War. In the years between 1931 and 1939 he addressed Social and Service Clubs all over Ontario. In 1944 and 1945 he was sent on another lecture tour of Canada by The Naval authorities. He explained why it would be necessary to win the Peace, if the fruits of military victory were not to be thrown away again.

Commander Carr was determined to inform as many people as possible regarding the Evil Forces which adversely affect all our lives, and the lives of our children. His book will be an eye-opener to parents, clergymen, teachers, students, statesmen, politicians, and labour leaders.

partnership. Later he returned to Frankfort where he secured control and ownership of the business which had been established by his father in 1750. The Red Shield was still proudly displayed over the door. Knowing the secret significance of the Red Shield Amschel Mayer Bauer decided to adopt it as the new family name. Red Shield in German is Roth Schild and thus The House of Rothschild came into being.

Amschel Mayer Bauer lived until 1812. He had five sons. All of them were specially-trained to become Captains of High Finance. Nathan, one of the sons, showed exceptional ability and, at the age of twenty-one, went to Engand with the definite purpose of securing control of the Bank of England. The purpose was to use this control to work in conjunction with his father and other brothers to set up, and consolidate, an International Banking Monopoly in Europe. The combined wealth of the International Banking Pool could then be used to further the secret ambitions his father had made known to all his sons. To prove his ability, Nathan Rothschild turned £20,000, with which he had been entrusted, into £60,000 in three years.

In studying the World Revolutionary Movement it is important to remember that The Red Flag was the symbol of the French Revolution and every revolution since. More significant still is the fact that when Lenin, financed by International Bankers, overthrew the Russian Government and established the first Totalitarian Dictatorship in 1917, the design of the flag was a Red Flag, with a Hammer and Sickle, and THE STAR OF JUDEA imposed.

In 1773, when Mayer Rothschild was only thirty years of age, he invited twelve other wealthy and influential men to meet him in Frankfort. His purpose was to convince them that if they agreed to pool their resources they could then finance and control the World Revolutionary Movement and use it as their Manual of Action to win ultimate control of the wealth, natural resources, and man-power of the entire world.

Rothschild revealed how the English Revolution had been organized. He pointed out the mistakes and errors that had been made. The revolutionary period had been too long. The elimination of reactionaries had not been accomplished with sufficient speed and ruthlessness. The planned reign of terror, by which the subjugation of the masses was to be accomplished speedily, had not been put into effective operation. Even after all these mistakes had been made the initial purpose of the revolution had been achieved. The bankers who instigated the revolution had established control of the national economy and consolidated the national debt. By means of intrigue carried out on an international scale they had increased the national debt steadily by loaning the money to fight the wars and rebellions they had fomented since 1694.

Basing his arguments on logic and sound reasoning, Mayer Rothschild pointed out that the financial results obtained as the result of the English Revolution would be as nothing when compared to the financial rewards to be obtained by a French Revolution provided those present agreed to unity of purpose, and put into effect his carefully thought out and revised revolutionary plan. The project would be backed by all the power that could be purchased with their pooled resources. This agreement reached, Mayer Rothschild unfolded his revolutionary plan. By clever manipulation of their combined wealth it would be possible to create such adverse economic conditions that the masses would be reduced to a state bordering on starvation by unemployment. By use of cleverly conceived propaganda it would be easy to place the blame for the adverse economic conditions on the King, his Court, the Nobles, the Church, Industrialists, and the employers of labour. Their paid propagandists would arouse feelings of hatred and revenge against the ruling classes by exposing all real and alleged cases of extravagance, licentious conduct, injustice, oppression, and persecution. They would also invent infamics to bring into disrepute others who might, if left alone, interfere with their over-all plans.\*

After the general introduction to build up an enthusiastic reception for the plot he was about to unfold, Rothschild turned to a manuscript and proceeded to read a carefully prepared plan of action. The following is what I have been assured is a condensed version of the plot by which the conspirators hoped to obtain ultimate undisputed control of the wealth, natural resources, and man-power of the entire world.

1. The speaker started to unfold the plot by saying that because the majority of men were inclined to evil rather than to good the best results in governing them could be obtained by using violence and terrorism and not by academic discussions. The speaker reasoned that in the beginning human society had been subject to brutal and blind force which was afterwards changed to LAW. He argued that LAW was FORCE only in disguise. He reasoned it was logical to conclude that "By the laws of nature right lies in force."

2. He next asserted that political freedom is an idea and not a fact. He stated that in order to usurp political power all that was necessary was to preach 'Liberalism' so that the electorate, for the sake of an idea, would yield some of their power and prerogatives which the plotters could then gather together into their own hands.

3. The speaker asserted that the Power of Gold had usurped the power of liberal rulers even then, i.e. 1773. He reminded his audience that there had been a time when FAITH had ruled but stated that once FREEDOM had been substituted for FAITH the people did not know how to use it in moderation. He argued that because of this fact it was logical to assume that they could use the idea of FREEDOM to bring about "CLASS WARS." He pointed out that it was immaterial to the success of HIS plan whether the established governments were destroyed by internal or external foes because the victor had of necessity to seek the aid of 'Capital' which "Is entirely in our hands." \*\*

4. He argued that the use of any and all means to reach their final goal was justified on the grounds that the ruler who governed by the moral code was not a skilled politician because he left himself vulnerable and in an unstable position on his throne. He said "Those who wish to rule must have recourse to cunning and to make-believe because great national qualities, like frankness and honesty, are vices in politics."\* \* \*

5. He asserted "Our right lies in force. The word RIGHT is an abstract thought and proves nothing. I find a new RIGHT... to attack by the RIGHT of the strong, and to scatter to the winds all existing forces of order and regulation, to reconstruct all existing institutions,

These were the original theories on which Class War was ultimately organized.

• This statement in the original documents should convince all but the blased that the speaker was not a Rabbi or Elder of the Jews nor was he addressing Elders and Rabbis because it was the Goldsmitha, the money-inders and their affiliates in commerce and bluster who in 1773 had the wealth of the world in their hands as they have it still help hands

in the 20th Century.

\* \* \* "The Red Fog"explains how this theory has been put into effect in America since 1900.

and to become the sovereign Lord of all those who left to us the RIGHTS to their powers by laying them down voluntarily in their 'Liberalism.'"

6. He then admonished his listeners with these words "The power of our resources must remain invisible until the very moment when it has gained such strength that no cunning or force can undermine it." He warned them that any deviation from the Line of the strategical plan he was making known to them would risk bringing to naught "THE LABOURS OF CENTURIES."

7. He next advocated the use of 'Mob Psychology' to obtain control of the masses. He reasoned that the might of the Mob is blind, senseless, and unreasoning and ever at the mercy of suggestion from any side. He stated "Only a despotic ruler can rule the Mob efficiently because without absolute despotism there can be no existence for civilization which was carried out NOT by the masses, but by their guide, who-soever that person might be." He warned "The moment the Mob seizes

FREEDOM in its hands it quickly turns to anarchy."

8. He next advocated that the use of alcoholic liquors, drugs, moral corruption, and all forms of vice, be used systematically by their "Agenture" \* to corrupt the morals of the youth of the nations. He recommended that the special 'agenturs' should be trained as tutors, lackeys, governesses, clerks and by our women in the places of dissipa-tion frequented by the Goyim.\*\* He added "In the number of these last I count also the so-called society ladies who become voluntary followers of the others in corruption and luxury. We must not stop at bribery, deceit, and treachery when they should serve towards the

9. Turning to politics he claimed they had the RIGHT to seize property by any means, and without hesitation, if by doing so they secured submission, and sovereignty. He pronounced "Our STATE marching along the path of peaceful conquest has the RIGHT to replace the horrors of wars by less noticeable and more satisfactory sentences of death necessary to maintain the 'terror' which tends to produce blind

10. Dealing with the use of slogans he said "In ancient times we were the first to put the words 'Liberty.' 'Equality' and 'Fraternity' into the mouths of the masses ... words repeated to this day by stupid pollparrots; words which the would-be wise men of the Goyim could make nothing of in their abstractness, and did not note the contradiction of their meaning and inter-relation." He claimed the words brought under their directions and control legions' Who bore our banners with enthusiasm." He reasoned that there is no place in nature for Equality, 'Liberty' or 'Fraternity.' He said "On the ruins of the natural and genealogical aristocracy of the Goyim we have set up the aristocracy of MONEY. The qualification for this aristocracy is WEALTH which is

11. He next expounded his theories regarding war. In 1773 he set down a principle which the governments of Britain and the United States publicly announced as their joint policy in 1939. He said it

The word 'agentur' means the complete organized body of agents—spies, counter-blacomailers, saboteurs, underworld characters, and everything and everybody outside the which enables the international conspirators to further their secret plans and ambition \* \* The word "Goyim" means all others than their own group. The unimportant people.

should be the policy of those present to foment wars but to direct the peace conferences so that neither of the combatants obtained territorial gains. He said the wars should be directed so that the nations engaged on both sides would be placed further in their debt, and in the power of 'Our' Agenturs.

12. He next dealt with administration. He told those present that they must use their wealth to have candidates chosen for public office who would be "servite and obedient to our commands, so they may readily be used as Pawns in our game by the learned and ingenious men we will appoint to operate behind the scenes of government as official advisers." He added "The men we appoint as 'Advisers' will have been bred, reared, and trained from childhood in accordance with our ideas to rule the affairs of the whole world."

13. He dealt with propaganda, and explained how their combined wealth could control all outlets of public information while they remained in the shade and clear of blame regardless of what the repercussions might be due to the publication of libels, slanders, or untruths. The speaker said: "Thanks to the Press we have got gold in our hands notwithstanding the fact that we had to gather it out of the oceans of blood and tears... But it has paid us even though we have sacrificed many of our own people. Each victim on our side is worth a thousand Goyim."

14. He next explained the necessity of having their 'Agentur' always come out into the open, and appear on the scene, when conditions had reached their lowest ebb, and the masses had been subjugated by means of want and terror. He pointed out that when it was time to restore order they should do it in such a way that the victims would believe they had been the prey of criminals and irresponsibles. He said "By executing the criminals and lunatics after they have carried out our preconceived 'reign of terror.' we can make ourselves appear as the saviours of the oppressed, and the champions of the workers." The speaker then added "We are interested in just the opposite... in the diminution, the killing out of the Goyim."

15. He next explained how industrial depressions and financial panies could be brought about and used to serve their purpose saying "Enforced unemployment and hunger, imposed on the masses because of the power we have to create shortages of food, will create the right of Capital to rule more surely than it was given to the real aristocracy, and by the legal authority of Kings." He claimed that by having their agentur control the 'Mob.' the 'Mob' could then be used to wipe out all who dared to stand in their way.

16. The infiltration into continental Freemasonry was next discussed extensively. The speaker stated that their purpose would be to take advantage of the facilities and secrecy Freemasonry, had to offer. He pointed out that they could organize their own Grand Orient Lodges within Blue Freemasonry in order to carry on their subversive activities and hide the true nature of their work under the cloak of philanthropy. He stated that all members initiated into their Grand Orient Lodges should be used for proselytizing purposes and for spreading their atheistic-materialistic ideology amongst the Goyim. He ended this phase of the discussion with the words, "When the hour strikes for our sovereign Lord of all the World to be crowned these same hands will sweep away everything that might stand in his way."

17. He next expounded the value of systematic deceptions, pointing out that their agentur should be trained in the use of high sounding phrases, and the use of popular slogans. They should make the masses the most lavish of promises. He observed "The opposite of what has been promised can always be done afterwards... that is of no conseture of the reasoned that by using such words as Freedom and Liberty, they could be made to fight even against the laws of God, and Nature. OF GOD will be erased from the 'Lexicon of life.'"

18. He then detailed the plans for revolutionary war; the art of street fighting; and outlined the pattern for the Reign of Terror which he insisted must accompany every revolutionary effort "Because it is the most economical way to bring the population to speedy subjection."

19. Diplomacy was next discussed. After all wars secret diplomacy must be insisted upon "in order that our agentur, masquerading." as dates without fear of exposing who are "The Secret Power behind that by secret diplomacy they must obtain such control "that the our secret agents having a hand in ti."

20. Ultimate World Government the goal. To reach this goal the speaker told them "It will be necessary to establish huge monopolies, reservoirs of such colossal riches, that even the largest fortunes of the Goyim will depend on us to such an extent that they will go to the bottom together with the credit of their governments ON THE DAY AFTER THE GREAT POLITICAL SMASH." The speaker then added "You gentlemen here present who are economists just strike an estimate of the significance of this combination."

21. Economic war. Plans to rob the Goyim of their landed properties and industries were then discussed. A combination of high taxes and unfair competition was advocated to bring about the economic ruin of the Goyim as far as their national financial interests and investments were concerned. In the international field he felt they could be encouraged to price themselves out of the markets. This could be achieved by the careful control of raw materials, organized agitation amongst the workers for shorter hours and higher pay, and by subsidizing competitors. The speaker warned his co-conspirators that they must arrange matters, and control conditions, so that "the increased wages obtained by the workers will not benefit them in any way."

22. Armaments. It was suggested that the building up of armaments for the purpose of making the Goyim destroy each other should be launched on such a colossal scale that in the final analysis "there will millionaires devoted to our cause... and police, and soldiers sufficient to protect our interests."

23. The New Order. The members of the One World Government

The "Lexicon of Life" he referred to, was Almighty God's plan of creation.

would be appointed by the Dictator. He would pick men from amongst the scientists, the economists, the financiers, the industrialists, and from the millionaires because "in substance everything will be settled by the question of figures."

24. Importance of youth. The importance of capturing the interest of youth was emphasized with the admonition that "Our agenturs should infiltrate into all classes, and levels of society and government, for the purpose of fooling, bemusing, and corrupting the younger members of society by teaching them theories and principles we know to be false."

E3. National and International Laws should not be changed but should be used as they are, to destroy the civilization of the Goyim "merely by twisting them into a contradiction of the interpretation which first masks the law and afterwards hides it altogether. Our ultimate aim is to substitute ARBITRATION for LAW."

The speaker then told his listeners "You may think the Goyim will rise upon us with arms, but in the WEST we have against this possibility an organization of such appalling terror that the very stoutest hearts quail... the 'Underground'... The Metropolitans... The subterranean corridors... these will be established in the capitals and cities of all countries before that danger threatens."

The use of the word 'WEST' has great significance. It makes it plain that Rothschild was addressing men who had joined the World Revolutionary Movement which was started in the Pale of Settlement in the 'EAST.' It must be remembered that before Amschel Moses Bauer settled down in Frankfort, Germany, he had followed his trade as a gold and silversmith, travelling extensively in the 'East' of Europe, where he had undoubtedly met the men his son Amschel Mayer addressed after he developed from a money-lender into a banker and established THE HOUSE OF ROTHSCHILD in the Judenstrasse where the above meeting is said to have taken place in 1773.

As far as can be ascertained the original plan of the conspiracy ended at the point where it terminated above. I am satisfied that the documents which fell into the hands of Professor S. Nilus in 1901, and which he published under the title "The Jewish Peril' in 1905 in Russia, were an enlargement of the original plot. There appears to be no change in the first section but various additions disclose how the conspirators had used Darwinism, Marxism, and even Nietzche-ism. More important still, the documents discovered in 1901 disclose how Zionism was to be used. It must be remembered that Zionism was only organized in 1897.

This matter is referred to later, when the intrigue leading up to the abdication of King Edward VIII is explained. The translation Mr. Victor Marsden made of The Jewish Peril was published by The Britons Publishing Society, London, England, under the title The Protocols of The Learned Elders of Zion in 1921. This book is also discussed. It appears logical to say that the discovery of the later document confirms the existence of the earlier one. Little if anything is changed, but considerable material is added probably due to the rapid development of the international conspiracy. The only point upon which there seems to be grounds for disagreement is in regard to the titles chosen by Prof. Nilus and Mr. Marsden for their books. Mr. Marsden definitely states the contents of his book are the Protocols of the meetings of the Learned

# RENO WANTS NATIONAL 'HIT TEAMS' Could Operate Anywhere in U.S.

What will the Justice deputy assistant director of the FBI

Department do with its own SWAT team?

EXCLUSIVE TO THE SPOTLIGHT By MIKE BLAIR

A bill has been introduced in Congress that would allow Attorney General Janet Reno to establish a

2,500-member "Rapid Deployment Strike Force" within the Federal Bureau of Investigation (FBI) to move into supposed local "high crime" areas to enforce both federal and local laws.

The proposal, known as the Rapid Deployment Strike Force Act, currently H.R. 97, is being sponsored by liberal Rep. Barbara Bailey Kennelly (D-Conn.) and has been referred to the House Judiciary Committee for consideration.

Under the proposed new act, the Rapid Deployment Strike Force (RDSF) would be commanded by a

and would be staffed by not only FBI agents but through the transfer of "personnel from other entities in the Department of Justice or any other federal agency."

One of the more onerous aspects of the act, the special force could include units of the U.S. military, as well as personnel of such federal agencies as the Bureau of Alcohol, Tobacco and Firearms (BATF), Drug Enforcement Agency (DEA) or any federal agency. GUN CONTROL EFFORT

The strike force could be brought into action, according to the wording of the proposed act, to enforce federal, state and local anti-gun laws.

It says the strike force could be utilized "upon finding that the occurrence of criminal activity in a particular jurisdiction is being exacerbated by the interstate flow of Deployment Force shall be based drugs, guns and criminals."

The question also arises as lo whether, under the act and co rary to the U.S. Constitution, melipers of the strike force could be forcibly housed in private homes, since i states that local officials mus "demonstrate a willingness to assis in providing temporary housing facilities for members of the Rapi Deployment Force."

# The Second Amendment Takes Another Hit

### -- Domestic confiscation bill, road-block gun ban passes Congress

Special GOA Fax Alert, (703)321-8585, http://www.gunowners.org

(Wednesday, October 2) -- The Congress sent President Clinton several gun control provisions as part of the omnibus spending bill. The President signed the bill late Monday night after both house had overwhelming passed the bill (House: 370-37; Senate: 84-15).

The anti-gunners in Congress succeeded in passing several amendments in the name of defending women and children. Despite the rhetoric, the provisions will not accomplish what was claimed and blow even more holes in our Second Amendment freedoms. Here's the "cliff notes" you will need to hold your legislators accountable. What follows is a brief summary of what passed, the practical problems with those provisions, and a listing of who voted right:

#### Road-block Gun Ban (Sec. 657 of the Treasury-Postal portion of H.R. 3610)

- Sets up thousands of gun ban zones across roads statewide where local police or the BATF can arrest unsuspecting drivers who have a firearm in the car. Victims will face 5 years in prison.
- Also known as the Kohl amendment, this provision reenacts the School Zone Gun Ban law ruled
  unconstitutional by the U. S. Supreme Court last year (U.S. v. Lopez, 1995). The provision creates gun ban
  zones nearly one-half mile in diameter around every school in the country.
- Anyone without a pistol carry license driving through a zone with an unloaded firearm, that is not in a locked container or rack, faces 5 years in prison. (This would apply even to off-duty police officers, despite ineptly crafted exceptions in the Kohl language.) Many who were previously able to drive freely with guns, either in plain view or in the glove compartment, can now be victimized by anti-gun local police and/or BATF agents.<sup>1</sup>
- And finally, just a couple of other quirks that result from the law: a) Because of the way "school" is defined in the Title 18 of the U.S. Code, the school zone gun ban could outlaw the possession of firearms by parents who home school their kids; and b) For a person who lives within 1,000 feet of a school, any hunting trip would constitute a legal labyrinth. He or she could not carry the gun to a car parked on the street unless he determined that such action was approved by school officials.

#### Domestic Confiscation (Sec. 658 of the Treasury-Postal portion of H.R. 3610)

- Frank Lautenberg, who has an "F." rating from GOA, originally cosponsored the so-called domestic confiscation provision with anti-gun Senators Dianne Feinstein and Edward Kennedy as S. 1632. The largest wholesale firearms confiscation effort in decades, this provision bans thousands upon thousands of Americans from owing firearms for life, and orders their guns seized. For now this gun ban only applies to domestic dispute misdemeanors, but it sets a very bad precedent, since previously only felons have been stripped of their rights. (Note: This provision could strip many law-enforcement officers, previously convicted of domestic violence misdemeanors, of their splitty to carry firearms.)
- Rep. Bob Barr introduced an NRA-supported amendment as a compromise. But even Barr's language was aftered after protests from Clinton and Senate Democrats. The Barr provision -- perhaps best termed as the "Lactemberg Lite" provision -- would have reduced some of the problems with the original version, but it still extended the gun bar into the area of misdemeanors (a bad precedent).
- The Lautenberg-Barr provision which passed the Congress threatens to disarm the very women that it is supposed to help. The provision would impose a lifetime gun ban on anyone who has been convicted of "us[ing] or attempt[ing to] use ... physical force" in a domestic situation. Of course, this "use of force" language can cover anyone (both men and women) who gets involved in a little spat between spouses, roommates, lovers, etc.
- The "use or attempted use of force" language will not only affect women who might throw a lamp at their spouse (like the First Lady), it
  will also endanger parents who spank their children. (Parents convicted of a domestic misdemeanor for spanking will now have to
  iorfeit their guns or else become telons -- for being a prohibited person in possession of a firearm.) This provision federalizes a state
  issue and is clearly unconstitutional (under the 2nd and 10th Amendments for starters).
- What is the answer? If an act of domestic violence is serious enough to lose your civil right to own guns, then
  it should be a felony, which persons already were prohibited from owning firearms. If it is not serious, it
  should be treated as a misdemeanor -- a penalty which historically has not forced one to forfeit his or her rights.

The National Security Agency spends \$1 million an hour listening to foreign (and domestic) secrets—including phone calls and faxes at the prime ministerial level.

What does NSA stand for? According to US electronic spooks: No Such Agency. Don't believe it.

America's real spies hunch over computer terminals trying to break foreign codes. Or they have their ears pressed to headers, potential fusions. They do not report to the CIA. They not report to the CIA they not report to the National Security Agency, the world's

largest, costliest and most secret mtelligence organization.

From a sprawling complex at Ft. Measke, maked between Washington and Baltimore. NSA listens to the world. Using a vast network of satellites, along with global acvesdropping posts that stretch from Alastica Capatewan, the agency monutors every-monutors every-monutors overy-monutors and tecronists to businessmen and government officials—

Serbian commanders radioing their troops in Boxias are unrestnogly salling to Serbo-Crosston inguist in a glass tower at Pt. Meade, just one of more than 100 languages spoken there, everything from leelands to Senegalese. Through NSA's sewestropping, American officials have tracked the tees of Russian President Boxia Yeltsin with Serbian President Slobodam Mitosvic, and those of Milosevic with Bostuan Serb leader Radovan Karadjic.

High-tech equipment aboard US reconnaissance aircraft routinely picks up Serbina radar signals and flashes them back to NSA beadquarens where computers identify mussic batteries, zapping the analysis back to NATO pilots. Time for the round trip? Beven seconds.

Since the recent rask of terrorist bombings in Israel, NSAS Arabe linguists have zeroed in on the phone calls and radio communications of the radical Islamie group Hamas, which has claimed respontibility for the earnage. Intelligence reports shared with the Israelis by CIA Disector John Deurch carefully

disguised the dan's source. But Israel is a target not, though the fact then NSA kistures to allies is a closely-held score of this secret organization. "All the equipment, all the money went to the Russian and Eastern European proups," said one former NSA Arabist. "The people in A Group, they were the surs," said another former listener, who trussiated Greek government cables.

But it didn't take long for this agency of skilled bureascrate to find oeen tarf. With President Climon's emphasis on global economic compassion on global economic compassion. NSA stepped in: Sifting through phone calls and faxes between Paris and Ryaght, NSA found a magnet summatabable evidence that agent for Airbas offered bribes to a high-level Sauti official.

Said one top Clinton administration official: "Intelligence on bribery lets us know what we're up against. We're better prepared."

When US trade begotistors sit across the table from foreign counterparts, chances are good they have read transcripts detailing their oppo-

nents' instructions.

NSA provided just such assistance to US negotiators during arise talks with Japan last year over luxury car imports.

One American trade envoy who works closely with NSA says he sometimes struggles as the negotiating table not net to early what he has learned from the eavest/oppers.

"You have to make sure there's no extra spring in your step, he says."

White NSA is charged with listening to foreigners, its dishes routinely pick up Americans' overseas calls as

well. Since 1975, when our eressional investigators found the agency had files on 75,000 Americans and was raves-dropping on anti-Vietnam War processers, NSA has been banned from deliberately targeting Americans. But the agency cannot exclude Americans' communications from its electronic net and the law says only that Americans names must be removed from intelligence reports, with the words "US person" substituted. Pertups worse, when the NSA trains its agents in the highly technical art of eavesdropping, US law gives them the right to practice - on you.

NSA agents may lawfully bone their listening skills and test their equipment on the most intimate telephone calls of ordinary US attzens, as long as notes and tapes are destroyed "as soon as reasonably possible."

stroyed "as soon as reasonably possible."
"We lissened to all the calls in and out of Washington," asys one former NSA linguis, recalling a class at the Warnenco Training Contra SCA communications school on a Virginia hilltop. "We'd listen

to senators, representatives, government agencies, houseswress talking to their lovers."
Wiring the world requires loss of ingenuity, loss of manpower and loss of the taxpeyers' money.

While the better known CIA spends about \$3 billion each year and employs about 15,000. NSA has 20,000 workers at its headquarters alone and tens of thousands of mostly military eavesdroppers.

deployed around the world. The price tag? About \$3.5 billion, along with another \$4 billion to \$2 billion to launch and maintain its fleet of satellites and pay overseas salaries for uniformed personnel. NSA's rivals at the CIA gripe that what they pay to recruit informants is pocket change compared with what NSA spends on technology.

When a Titan IV rocket exploded shortly after its launch in California in August 1993. the biast destroyed its secret payload: durce eavesdropping satellites worth \$275 million apiece, officials said. The damage equaled the Nanonal Park Service's annual budget

Such satellites unfur ultralight foil dish antennas the size of a football field. Orbiting above target countries. they catch the microwave signais of telephone calls and faxes as they rachate from reay towers.

From ground stations in Sugar Grove, W.Va., and Yakuma, Wash., in England Germany, Japon, Australia and elsewhere, 1924, reliate to

ate, the commercial communications satellites that carry the bulk of the world's phone fax, computer and other traf-fic. In other words, operating in Germany, England, France and other countries, NSA eavesdrops on the host countnes leadership, government, business and on its citizens.

Every time a communications satellite is launched, NSA puts up a satellite dish in keep track of it," says John

NSA bugs their hetel rooms. Working with designated telephone company employees. NSA delivers a list of targeted numbers and appropriate legal papers. Phone company technucians must a few buttons to make the connection.

Sometimes the eavesdroppers can't operate at such a sare distance. NSA technicians operating under unrevesting code names such as "Musketee," and "Broadside" sometimes take their listening tools close to the source

By bouncing a laser off an office window, NSA listeners can prek up the conversation inside from the subtle vibranon of the glass. Technicians put any ransmitters unto vas-

create and drywall of every office with undetectable fiberoptic listening devices. In August, 1990, when the Chinese moved into their \$13 million

embassy, the harvest began. As the diplomats set about their work, their conversations and computer keystrokes were flashed by satelline to the other side of the globe: candid talk about relations with Tarwan, secret cables with details of Beijing's trade deals, reports latest military haroware.

While only some foreign embassies are wired by NSA. nearly all US embassies are part of the agency's vast collection network

The Special Collection Service, an elite cavesdropping unit handpicked from ranks of NSA and CIA, handies the delicate task of listening from windowless rooms unside embassies, consulates and other US facilities abroad. So secret that most employees

NSA has often been derich in the spy world as a haven for desk-bound technicians who rarely venoure far from their ranch homes in the subdivi sions around Fort Meade. But there are hundreds of people working for SCS whose lives mirror the characters in spy novels. When they leave the Maryland field site, they have cover stories, foreign currency and business cards comple with the phone number of a fictioious boss who will wouch for them. And they are often headed to some of the most

volatile countries in the world. Gary C. Durell, one of three opioyees of the US consulate in Karachi killed by terrorus bullets last spring, was a Special Collection Service spy.

NSA is the manon's largest of mathematicians and wields the greatest concentration of computing power on earth. That kind of number-

des. It has di agents on break-in museions to snarch code books from five ago facilities in the United States. CLA agents recount foreign communications clerks

and buy their code secrets. NSA's boldest coup in codebreaking took place in ma unlikely location: Zuga Switzerland, the borne of a manufacturer of encryption Zug equipment called Crypto AG. For years, NSA secretly ngged Crypto AG machine so that US exvesdropper could easily break their codes. according to former employ ees and company document

Why Crypto? Wary of companies in NATO com mes, the suspicious govern-ments of such prime US per gets as Iran, Iraq, Libya and fugoslavia bought ecur from the Swiss firm. Using messages created on the Swiss machines, these countries and others may have been sending an easily un-scrambled copy directly to Fort Meade

Considering the breachth and depth of NSA, it is little wonder that delegations to this month's Group of 7+1 (US, Canada, Britain, France, Germany, Italy, Japan plus Russia) are under orders to be careful about what they say, whether in conversation, via fax, or by computer. Paranou? # Gorbachev, Bush Lead the Charge

Just as San Francisco was the birthplace of the United Nations, now the "city by the bay" will host a meeting to establish ground rules for gove.ning a united world.

EXCLUSIVE TO THE SPOTLIGHT
BY MIKE BLAIR

Former Soviet President Mikhail Gorbachev has been named the "convening chair" and host of a world forum on the "first global civili-ration" planned for San Francisco from September 27 to October 1.

Elitists at the conference are scheduled to consider how the called "new world order will be governed.

The last dictator of the allen Soviet Union, Gorbachev has ensconced his Gorbachev Foundation USA in the former Coast Guard commandant's residence at the closed U.S. military base, the Presidio, in San Francisco.

The SPOTLIGHT has learned former President George Bush and ex-British Prime Minister Margaret Thatcher have agreed, among others, to serve as co-chairs of the forum slated for San Francisco's Fairmont Hotel. Others to co-chair the meeting on the so-called new world order include: Ted Turner, U.S. television mogul; George Shultz, a former secretary of state; Askar Akaev, president of the Soviet break-away republic of Kyrgystan; Tansu Ciller, prime minister of Turkey; Vaclav Havel, prime minister of the Czech Republic; Bilder rger Ruud Lubbers, ex-prime minis: r of the Netherlands; Rigoberta Menchu, Guatemala, like Gorbachev a -ccipient of the Nobel peace prize; Yasuhiro Nakasone, former prime minister of Japan; Julius Nyerere, ex-president of Tanzania and Desmond Tutu, Episcopal archbishop of South Africa.

In explaining the purpose of the forum, former U.S. Sen. Alan Cranston (D-Calif.), chairman of the Gorbachev Foundation USA, lamented that hopes for a new world order following the cold war have dimmed.

"There appears to be a great cynicism everywhere with government," Cranston said. "And there is a yearning for new directions."

About 8,000 business leaders from 75 countries have been invited to attend as paying participants at a cost of \$8,000 each, which will bring the tax-exempt Gorbachev Foundation USA a total of \$64 million, if all attend.

Other invited guests include Vice President Al Gore, President Nelson Mandela of South Africa, ABC newsman Ted Koppel, novelist Isabel Allende, Zbigniew Brzezinski, national security adviser in the Carter administration, Jessica Tuchman

MIKHAIL GORBACHEV ... Heads his own foundation.

Mathews, sunker fallow of the Council on Foreign Relations (CFR) who writes a column in the Washington Post, and Paul Volcker, former chairman of the Federal Reserve Board. CLINTON NOT INVITED?

President Bill Clinfon does not appear either on the list of co-chairs or invited guests, which is unusual since he has received high praise from Gorbachev.

According to the Cape Cod (Massachusetts) Times of January 23, 1993, Gorbachev stated:

# Joint Military Operations Confirmed

The Russian people are being to demore about joint military operations than I mericans.

BY MARTIN MANN

This populist newspaper's exclusive reports about foreign troops and combat equipment maneuvering on U.S. soil have now been confirmed by an official statement. But most Americans never heard it. The announcement on U.S.-Russian military preparations for rapid reaction 'crowd control' and 'public safety' measures were seen only on Russian television. The U.S. networks blacked them out.

Interviewed on Moscow TV, General of the Army Pavel F. Grachey the Russian minister of defense, bluntly admitted on September S that his forces are engaged in joint training, indoctrination and field exercises" with elite U.S. units to develop common tactics for dealing with "riots, violent outbreaks, terrorist attacks and other emergencies."

Responding to a barrage of probing questions from reporters, Gen. Grachev confirmed that rehearsals for such "integrated" U.S.-Russian military operations are taking place this year both in America and Russia.

High-tech communications equipment, helicopters, armored vehicles and psychological warfare techniques are involved in the bi-national deployments, Gen. Grachev added. CONFIRMATION CALL.

within hours after the Russian defense chiefs explosive revelations, a SPOTLIGHT reporter in Washington called his key Pentagon contacts to ask whether the Clinton administration would continue to stonewall on the presence of foreign troop units and military logistics in this country.

According to least one highly knowledgeable Defense Department source, Secretary of Defense William Perry has decided to make an impromptu visit to Russia next month.

While reviewing joint maneuvers by U.S. and Russian forces with Gen. Grachev during his trip. Secretary Perry will tell newsmen that recent sightings of Russian units and armaments in the U.S. are part and parcel of the Clinton administration's "Partnership for Peace" project.

But according to these sources it is unlikely that Secretary Ferry will be able to explain why such an inoffensive-sounding program should involve training Russian rapid reaction units how to deal with American style public disorders.

This is a Russian T-72 main battle tank, painted "United Nations White," spotted along an interstate highway near San Antonio, Texas.

The Navy Times of August 29 described the Russians' visit.

to get off the interstate route and find a mini-mart convenience store where he purchased a disposable film/ camera unit.

Again back on the interstate highway, he was able to catch up to the T-72 and take several photographs of it. In the process, the driver of the truck hauling the trailer realized the tank was being photographed and he attempted to avoid it, ultimately edging his pursuer with camera off the road onto the highway's grassy median.

Behind The SPOTLIGHT's volunteer cameraman was a Chevrolet S-10 Blazer, which remained close, making it impossible for him to drop back behind the huge truck, tank and trailer.

Two hours later, after having the photographs developed at a fast photo store, the man arrived home in the San Antonio area to find the Blazer with two occupants, whom he believed

to be some type of federal agents, parked in one of his driveways.

The man drove into his other driveway and parked, entering his home through some bushes and the back door. He re-emerged from the house and walked toward the Blazer with a shotgun.

The Blazer hurriedly backed from the driveway and sped away.

A few days later, three more T-72's were seen on trucks coming out of nearby Camp Bullis, an Army Reserve training center. They got on Route 10 and headed west away from San Antonio.

Two were painted desert tan and the third was white.

Three residents of Post Falls, Idaho, reported sighting several vehicles bearing UN insignia traveling along Spokane Street in the village, located three miles west of Couer d'Alene in northwestern Idaho, near the Washington state border, east of Spokane.

### PROOF IRS HAS NO ENFORCEMENT AUTHORITY

The fact that Title 26 Income Taxes and Title 27 Alcohol, Tobacco and Firearms Taxes are two different non-compatible types of taxes is documented in the following Senate Hearing Report from the 83rd Congress, House of Representatives, House of Ways and Means 2/3/53 -2/13/53:

Dwight E. Avis. Head of the Alcohol. Tobacco, and Firearms. Bureau of Internal Revenue: "Let me point this out now. This is where the structure of the Income Tax and the Alcohol, Tobacco, and Firearms Tax! differs. Your income tax is a 100% voluntary tax and your liquor tax [Alcohol, Tobacco and Firearms] is a 100% enforced [mandatory] tax. Now the situation is as different as night and day. Consequently, your same rules simply will not apply!"

### THE FEDERAL RESERVE

THE FEDERAL RESERVE, WHICH OWNS OUR MONEY SYSTEM AND SETS MOMETARY POLICY, IS NOT AN ACTUAL PART OF OUR GOVERNMENT AT ALL. IT IS, IN FACT, A PRIVATE STOCK CORPORATION NEVER FOUND IN THE GOVERNMENT PAGES OF YOUR TELEPHONE DIRECTORY. THE TRUE SECRET OWNERS OF THE FEDERAL RESERVE INCLUDE:

- THE ROTHCHILD BANKS OF LONDON AND BERLIN
- THE LAZAR BROTHERS BANK OF PARIS
- I'HE ISREAL MOSE'S SEIF BANKS OF ITALY
- THE WARBURG BANKS OF AMSTERDAM AND HAMBURG
- THE NEW YORK BANKS OF GOLDMAN-SACHS, CHASE MANHATTAN (ROCKEFELLER), KUHN LOEB, AND LEHMAN BROTHERS

ARTICLE 1.8.5 OF OUR U.S. CONSTITUTION DELIBERATELY ORDAINED <u>CONGRESS</u> TO "PRINT MONEY AND ESTABLISH THE VALUE THEREOF". THIS WAS DONE SO CONGRESS WOULD HAVE TO BE ANSWERABLE TO WE THE PEOPLE CONCERNING FINANCIAL STABILITY.

THE POSSESSION OF MONEY IS POWER. THIS PRIVATE FEDERAL RESERVE SIMPLY HAS MONEY PRINTED AT OUR EXPENSE AND THEN LOANS IT TO US WITH INTEREST AS IF THEY HAD EARNED IT WITH IBLOOD, SWEAT AND TEARS. THE FEDERAL BANK OWNERS THEN PROFIT EXTREMELY WELL FROM THE INTEREST WE PAY THEM ON SUPPOSED LOANS THEY APPROVE FOR US. KNOWN AS FRACTIONAL BANKING, THEY MAY LEND OUT TEN TIMES MORE MONEY THAN THEY ACTUALLY HAVE ON HAND AND COLLECT INTEREST ON THESE LOANS, TOO WE PAY THEM HIGH INTEREST THAT RETURNS THEM 300% ON VERY SAFE LOANS, LIKE THIRTY YEAR REAL ESTATE, THAT ARE SAFEGUARDED WITH THEIR REPOSSESSION RIGHTS OF OUR COLLATERAL

THEY PROFIT MOST FROM LENDING MONEY, THAT NO ONE EARNED, TO GOVERNMENTS. THESE GOVERNMENT TREASURIES, LANDS, FORESTS, OIL WELLS, MINES AND TAXABLE CITIZENS BECOME THE COLLATERAL WHICH ARE OFTEN COLLECTED WITH MILITARY FORCE.

, ,, ,, ,

THE FEDERAL RESERVE COLLECT BILLIONS OF DOLLARS IN TAXES FROM US ANNUALLY THROUGH THE IRS THAT GOES DIRECTLY INTO FEDERAL RESERVE ACCOUNTS. MOST OF THE IRS AMOUNT NOW GOES TO THIS PRIVATE CORPORATION TO PAY INTEREST ON THE NATIONAL DEBT. THE GHEATER THE PUBLIC AND PRIVATE DEBT, THE MORE INTEREST THEY COLLECT. THE MORE INTEREST THEY COLLECT. THE MORE INTEREST THEY COLLECT, THE MORE POWER THEY HAVE OVER THE CITIZENS OF THIS COUNTRY AND OTHER COUNTRIES. THE ENFORCEMENT AND CONTROL OVER US INVOLVES MANY THREAT AGENCIES OF THE PEDERAL GOVERNMENT INCLUDING THE IRS, FBI CIA, EPA AND MILITARY.

MANY AMERICAN HAVE HAD, OR KNOW OF, EXAMPLES OF DEBT AND THE THREATS DUE TO THESE AGENCIES. THEY APPROVE OF THE "DISCONTINUATION AT ANY TIME" OF THE FEDERAL RESERVE BY CONGRESS PER SECTION 30 OF THE FEDERAL RESERVE CHARTER. BY ELIMINATING THE FEDERAL RESERVE AND RETURNING TO THE CONSTITUTIONAL MANDATE THAT CONGRESS SHOULD REGULATE THE FINANCIAL AFFAIRS OF THIS COUNTRY, MANY OF THE CURRENT FINANCIAL PROBLEMS COULD BE REDUCED OR SOLVED.

### TED GUNDERSON PLAN

### SCIENTIFIC TAX REFORM

By 3 simple Scientific Acts, we can create more jobs, balance the federal budget, and provide tax relief for most Americans.

First: Abolish all Income Taxes including the most unfair tax of all, the so-called Social Security Taxes -- your payroll deductions.

Even a corporation doesn't have to pay an income tax until it makes a profit! However, a human being, working for \$200 a week, may have to pay over \$60 in payroll taxes. There's no profit in 200 per week, because it costs that much to survive. That's a discrimination that must be abolished!

By abolishing all income and payroll taxes, we would increase the take-home pay of everyone, who works for a living, by 20 to 40 percent — putting over two billion dollars extra a day into the pockets of those who need and deserve it most — those who will spend it!

Just think: 2 billion dollars extra each day in the hands of the working poor would create: (1) at least 20 million new jobs (2) the greatest prosperity this nation or any nation has ever known (3) and millions of our poor people would at last have a better chance to earn an honest living.

This can work providing we do two additional things:

- 1. Balance the federal budget.
- 2. Control inflation.

The Second Scientific Act: To balance the federal budget, we must first cut its expenses. This cannot be done as long as a committee with no one in charge is allowed to spend our money. A committee with on one in charge means that no one can be held responsible for the waste. There is no one to blame when things go wrong. To balance the federal budget, we must put someone in charge who can be held responsible.

(over)

Let's face the facts, our present government is largely controlled by Congress, which is two committees almost completely out of control, because no one is in charge of either one. It is a proven fact that such committees simply cannot be trusted to handle money or do anything else properly or intelligently.

Our federal government is already overwhelmed by debts, while its still spending far beyond its means -- with no change in sight!

Our President and Congress need to delegate the job of straightening out our government's financial mess to a reputable Financial Manager who is charged with cleaning up the mess and given the authority required to do it. Then, if he fails or gets out of line, a 3/4ths vote of both Houses of Congress needs to have the power to replace and/or punish him.

To successfully control our government's finances, that control must be given to someone who can be held accountable. That power must be taken out of the hands of Congress -- or we shall NEVER succeed in straightening out our government.

The Third Scientific Act: Government is necessary -- and, of course, our government needs enough money to cover its necessary expenses and enough to balance its budget! Or -- eventually, we'll have run-away inflation. This can be done, as Thomas Jefferson suggested in 1785, by taxing wealth on a graduated basis instead of income.

The United States is still the most powerful and richest nation in the world with over 60 trillion dollars worth of assets that can be taxed. A modest, average tax of 3 and 1/3rd percent on that 60 trillion could raise over 2 trillion dollars per year -- enough to pay all current necessary expenses and start paying off our debts. Almost no one would be seriously hurt!

One of the powerbrokers to use the astitution ring was Craig J. Spence. He regularly threw orgies for major Gruces in the Reagan and Bush ministration, which were covertly ned and bugged, the Washington Times reported today. Spence has been named as one of the key figures

The Times also reports that its editor, Arnaud de Borchgrave, had attended one dinner reception at Spence's home honoring Lilly. ### NEBRASKA COVER-UP

On November 4, 1988, the Franklin Credit Union, Omaha Nebraska was closed, as the result of a raid by the FBI and the IRS. It was initially opened in a minority neighborhood to provide minorities with a source for loans and other banking opportunities. Larry King, a black man, was the president. He was a rapidly rising "star" in the Republican party, having previously, sung the National Anthem at the Republican National Convention in Dallas, Texas, and New Orleans, Louisiana. Forty million dollars was missing, \$38 million of which was subsequently located, with \$2 million still missing. King's salary was \$17,000.00 per year.

On November 18, 1988, the Nebraska state legislature passed a resolution to investigate the Franklin Credit Union. As a result of this investigation, approximately 80 youngsters came forward and made allegations concerning sexual abuse as well as cult activity, including the human sacrifice of small children. Some of the most prominent community leaders, including the former publisher of the Omaha World Herald, Harold Andersen, the then chief of police, Robert Wadman; the society editor of the Omaha World Herald, Peter Citron; a former State Senator; multi-million dollar heir to Brandeis Department, Eugene Mahoney, were among those identified as perpetrators. Some of these individuals, were among those identified as involved in cult activities and human sacrifices.

Of the number of children making the allegations, only four agreed to give statements. Two of the four later recanted, but the remaining two refused to recant and held steadfast concerning their allegations. Criminal charges were filed against the two who refused to recant. One of the two, Alisha Owens, was convicted of having committed perjury before a grand jury and served two years in prison in solitary confinement. This is the longest any women has been held in solitary confinement in the history of the State of Nebraska. (The case is under appeal. If lost, she could face up to 25 years in prison.) Charges against the other witness, Paul Bonacci, were dropped, as he had been convicted of child molestation and it apparently was felt that he had already been discredited. Subsequent investigation established that children were taken from Boys Town and a private girls' school, driven to Sioux City, Iowa, placed in private jets and flown to Washington, D.C., and other communities for sex orgies with U.S. congressmen, U.S. senators, at least one top official in the White House and other public officials. Information was also developed that the children were used as decoys for an around-theworld drug operation. They were also used in an organized child kidnapping sex slave ring in which children were kidnapped, and used in porno films and snuff films. Some were auctioned off near an air strip close to Las Vegas, Nevada and Toronto, Canada, A 10 to 13 year old blue-eyed blonde sells for \$50,000 or more. Some of these children were placed in airplanes that carried no markings and they have not been seen since. Many were sold to foreigners. Some of the children have stated that at least one of the airplanes belonged to the U.S. Drug Enforcement Agency (DEA).

# She said she had sex with Wadman when she was 14 years old.
"She was carried because he denied int.

Some of the sex orgy parties were held in a condominium in Washington D.C., that was rented by Larry King for \$5,000 per month.

Paul Bonacci, who has drawn a diagram of the living quarter inside the White House, said he met Craig Spence and Larry King in the White House on one occasion. It is a known fact that Spence was running a male call-boy operation in the White House, (Washington Times, June 26, 1989.) Spence supposedly committed "suicide" after this information became public. He reportedly was a CIA agent who specialized in Blackmailing politicians and foreign dignitaries. Information has been received that at least one FBI agent conspired with Spence.

Paul Bonacci told how he flew to Los Angeles on one occasion, met a man and a woman he had never seen before and the three, using five different names and passports, flew drugs throughout the world. He estimates he has made more than 100 such drug runs

Fifteen people have died mysteriously, including the senate committee appointed investigator, Gary Caradori, and his young son Andrew. Caradoris' plane exploded in mid-air shortly after leaving Chicago, Illinois, for Lincoln, Nebraska on July 11, 1990. The day before, he called the chairman of the senate investigating committee Lauren Schmit and told him he had irrefutable evidence that the children were telling the truth.

The investigation of the plane explosion was conducted by the Federal Government at a military installation. No testing was done for phosphates to rule out an explosion. The toxicology tests of the bodies were conducted at a military base laboratory rather than at the civil National Transportation and Safety Board laboratory. The military lab reported an inability to test for certain chemicals. Neither Caradori's briefcase nor the rear seat of the airplane have been found. We have received information from an informant that a phosphorus bomb was used to destroy the airplane. It may have been placed under the rear seat which would account for failure to locate it. If located the seat may provide forensic proof whether or not a phosphorus bomb was used.

At the time of the plane crash, former Omaha Chief of Police, Bob Wadman, who was identified by the children, was chief of police in Aurora, Illinois, which is 30 miles from the crash site. Wadman is believed to have visited the crash site immediately after the crash.

It is a violation of the Federal Delimitation's Agreement for civilian matters to be investigated by the military.

Alisha Owen's brother, Aaron Owen, died November 9, 1990 which was less than six months after Owens refused to recant her allegations and prior to her perjury trial. Aaron reportedly hanged himself in a correction center cell. Alisha believes he was murdered in an attempt to keep her from telling the truth.

Troy Bonner, who initially made allegations and then recanted contacted Senator Schmit, chairman of the investigation committee, after the Caradori plane crash. Remorseful over Caradori's death, Bonner admitted he lied before the grand jury and was fearful for his life should he tell the truth in the upcoming trial of Owen. Prior to the trial and after this meeting with Senator Schmit and 8 other legislators, Bonner's brother, Shaun Bonner, was killed reportedly while playing "Russian roulette" at Offutt Air Base near Omaha. This death occurred two months after the death of Aaron Owen. Bonner advised his brother hated guns and he never knew him to play Russian roulette. In affidavits submitted to the U.S. District Court, Bonner states he believes his brother was murdered as a personal death threat to him (Troy) should he decide he would tell the truth at the Owen's trial.

Peter Citron, past society editor of the Omaha World Herald, who was identified by the youngsters as a perpetrator, was arrested by the Omaha police for sexual assault of two children on February 23, 1990. At the time of the arrest, the police confiscated more than 90 videotapes which reportedly contain sexual acts of some of the youngsters with perpetrators.

Mr. John DeCamp, a Lincoln, Nebraska, attorney who is representing some of the youngsters, pro bono, in a civil suit, claims these videotapes are the "smoking gun" in this case. Initially, it was alleged that there were no tapes. When it was documented that the tapes exist, it was denied that the perpetrators identified by the children were on the tapes. The accused later argued in court that the tapes should not be made public, as it would destroy the reputation of "respectable" and "reputable" citizens.

Thus far, Mr. DeCamp has been blocked by the courts in exposing these tapes as the court has said that the tapes will not be made public. A gag order has been issued to all parties concerning the contents of the videos. Mr. DeCamp can only review them without taking notes. At the conclusion of the case, the video tapes will be destroyed per a court order.

Within the past year, Yorkshire T.V. in England produced a documentary on this case entitled Conspiracy of Silence. It was sold to the Discovery Channel and scheduled to air on national T.V. on May 3, 1994. The Discovery Channel is a division of Cox Television, Atlanta, Georgia. The major stockholders of Cox T.V. have been financial supporters of the Republican Party and have direct ties to former President George Bush. This documentary among other things, states that Larry King's Washington D.C. home on embassy row was said by child victim witnesses to have been used for the child/adult sex orgies involving important Washington D.C. insiders, including a very high level White House official. The documentary, scheduled for airing May 3, 1994, was never shown, even though it was listed in the T.V. Guide.

The latest development on the case involved a \$9 million settlement of a civil suit with the National Credit Union Association. The National Credit Union Association, which represents the insurance interest in the case, sued the law firm that represented the

Franklin Credit Union and the First Tier Bank in Omaha, claiming that they were aware of the various illegal activities on the part of those involved in the Franklin Credit Union case. Rather than go to trial, the law firm paid, \$6 million and First Tier Bank paid \$3 million. The lawsuit documents that Franklin Credit Union funds were used to pay for campaign films for former President Bush, to rent the condominium in Washington, D.C. and to pay for private jets to fly to Washington, D.C.

The law firm advised, it avoided a trial because it would have been to strenuous to their staff. In addition to the allegations of human satanic cult sacrifices, drugs, pedophilia, pornography and snuff films, there is documentation that some of the most prominent people in the country, including individual actively involved in the U.S. civilian and military intelligence communities, are participants in these activities and involved in this network. Some of the youngsters have talked about witnessing ceremonies in which the participants wore black robes with hoods, sacrificed children and drank human blood and urine. (sentantic traits in rituals.) There are numerous references by the children to activity being conducted on U.S. government and military installations.

American Information Company (AIC) of Omaha Nebraska provides 32 voting districts in the U.S. and others internationally with scanning computerized election services. They are a private company that can be hired to count the vote in public elections. The Omaha World Herald owns 45% of its stocks.

Two days before the June 1994 Nebraska & Republican primary Mr. John DeCamp one of four canidated running for governor led the private primary polls with 33% of the vote. After the election and the count by AIC he placed third with less than 14% of the vote.

Information has been provided by the children that there is an organized pedophile ring that transports children for sex orgies from Omaha, Nebraska to Des Moines, Iowa, Minneapolis, Minnesota, Milwaukee and Madison, Wisconsin and return. The youngsters have made numerous references to an organized child kidnapping ring that is being ignored by law enforcement officials. Mr. Ted L. Gunderson, the former Senior Special Agent in Charge of the FBI Los Angeles Division has informed the FBI by registered mail of this in an attempt to pressure them into conducting an investigation. He has been told that the FBI is not interested in these matters.

The July 1982 Readers Digest, states that 100,000 children disappear every year and are never heard from again. The U.S. Department of Justice and the FBI can furnish the number of automobiles that are stolen each year, and provide other criminal statistics. They can furnish how many wives, husbands, sons, daughters, fathers, brothers, mothers and sisters are murdered by each family members (Time Magazine 10/25/93). Government officials can provide the first names of missing children nationwide since 1989 (Las Vegas Review Journal E 16 7/24/94), yet they do not tell collect data on the number of children who disappear each year.

In spite of the fact that some of the children in the Franklin case can assist law enforcement in these matters, the police and the FBI claim the children have no creditability. Does this mean that the FBI now has a new policy not to talk to convicts or ex-convicts because the convicts have no creditability? Is the FBI not talking to the youngsters because of the many prominent people involved? One wonders how well organized this network is and how high its tentacles reach into the Government.

### DETAILS OF INVESTIGATION:

n Thursday, February 5, 1987, this office was contacted via telephone, by sergeant, Johnn Vanmeter of the Tallahassee Police Department, uvenile Division. Sgt. Vanmeter requested assistance in identifying wo adult males and six minor children ages 7 years to 2 years.

The adult males were tentatively identified by TPD as Michael HOULIHAN nd Douglas AMMERMAN, both of Washington, D.C., who were arrested the previous day on charges of child abuse.

he police had received an anonymous telephone call relative two well-cressed white men wearing suits and ties in Myers Park, (Tallahassee), apparently watching six dirty and unkempt children in the playground rea. HOULIHAN and AMMERNAN were near a 1980 Blue Dodge van bearing rirginia license number XHW-557, the inside of which was later described as foul-smelling filled with maps, books, letters, with a mattress pituated to the rear of the van which appeared as if it were used as a bed, and the overall appearance of the van gave the impression that all eight persons were living in it.

the children were covered with insect bites, were very dirty, most of the children were not wearing underwear and all the children had not the children had not been bathed in many days.

The men were arrested and charged with multiple counts of child abuse and lodges in the Leon County Jail. Once in custody the men were somewhat avasive in their answers to the police regarding the children and stated only that they both were the children's teachers and that all were enroute to Mexico to establish a school for brilliant children.

The children tentatively were identified as Mary HOULIHAN, white female, age 7; Max LIVINGSTON, white male, age 6; Benjamin FRANKLIN, white male, age 4; HoneyBee EVANS, white female, age 3; B.B., white male, age 2; and John Paul HOULIHAN, white male, age 2. The children initially indicated that they lived in tents in a commune in the Washington, D.C., area and were going to Mexico to go to a school for smart kids.

This office contacted the Office of the RAC/DC and spoke with SS/A, Bob Harrold. This agent requested telephone numbers and names of police persons in area departments that might be aware of said activities described by the children and to follow-up on the leads which were the Virginia license number and a check on the men's names with local law enforcement.

A short time later this office was contacted by Detective, Jim Bradley of the Washington, D.C., Metropolitan Police Department. Bradley indicated that the case here in Tallahassee appeared to be strongly related to a case he was currently working in the Washington, D.C. area.

He stated that the actions of the two men in custody in Tallahassee relative the children just might give his case enough probable cause for search warrants to search premises occupied by a cultigroup called the FINDERS.

This agent directed Bradley to telephone TPD and discuss directly any activities forthcoming relative the instant case

At this time it was determined that there was no Customs violations found to exist and therefore, this case is being closed pending receipt of additional information.

### MEMO TO FILE

To : Resident Agent in Charge

. Date: 02/07/87

From : Special Agent

Subject: Customs cooperation/interest in

Tallahassee/Washington MPD child abuse investigation.

On Thursday, 2/5/87, the duty agent, SS/A Bob Harrold, received a call from SS/A Walter Krietlow, USCS, Tallahassee, Plorida. SS/A Krietlow was seeking assitance in contacting an appropriate local police agency to coordinate a child abuse investigation in with the Tallahassee Police Department. SS/A Krietlow further requested assistance in checking some names, addresses and a vehicle through the Customs Child Pornography Unit data base, and stated there was some suspicion of the subjects being involved in supplying children for the production of child pornography. Further, he was informed by the Tallahassee Police Department that the children may have been enroute to Mexico from the Washington, D.C. area. The possibility of Customs interest in the investigation due to possible violations of the Child Protection Act of 1984, and the alleged nexus with the U.S./Mexican Border were discussed and agreed upon. SS/A Krietlow related the following background information. SS/A Krietlow was contacted by the Tallahassee Police Department for assistance in identifying six children and two adults taken into custody in the Tallahassee area. U.S. Customs was contacted because the police officers involved suspected the adults of being involved in child pornography and knew the Customs Service to have a network of child pornography investigators, and of the existance of the Child Pornography and Protection Unit. SS/A Krietlow stated the two aduls were well dressed white males. They had custody of six white children (boys and girls), ages three to six years. The children were observed to be poorly dressed, bruised, dirty, and behaving like animals in a public park in Tallahassee. The police were notified by a concerned citizen and all eight persons were taken into custody. The subjects were living out of a white 1979 Dodge van, Virginia license no. XEW 557. Upon being taken into custody, the adult white males refused to cooperate, one of whom produced a "business" card with a name on one side and a statement on the other. The statement indicated that the bearer knew his constitutional rights to remain silent and that he intended to do so. interviewing the children, the police officers found that they could not adequately identify themselves or their custodians. Further, they stated they were enroute to Mexico to attend a school for "smart kids." SS/A Krietlow was further advised the children were unaware of the function and purpose of telephones, televisions and toilets, and that the children had stated they were not allowed to live indoors and were only given food as a reward.

54 24 400 n After receiving the request from Tallahassee, SS/A Harrold contacted me while I was on official business; at Customs Headquarters. He requested that I conduct computer checks on the Customs Child Pornography Unit data base The checks were to be conducted on the names, addresses, and a vehicle provided by SS/A Krietlow. After conducting the computer checks, I made direct contact with SS/A Krietlow to inform him that all the checks were negative. At that time I was informed by SS/A Krietlow that the Tallahassee police had discovered large quantities of records, to include computer discs and a U.S. passport in the van. Prom some of these records the police had obtained tentative identification of the two adults, and partial identification of the children. Purthemore, the two Washington, D.C. addresses had been discovered through these documents, one of which was verified through the vehicle registration. I advised SS/A Krietlow I was leaving Headquarters and he would be receiving a response to the remainder of his request from SS/A Harrold. I then left as stated and proceeded to conduct other business in the District.

A short time later, at approximately 11:30 a.m., SS/A Harrold contacted me by radio, and advised me that a Detective Jim Bradley of the Washington, D.C. Metropolitan Police Department (MPD) was interested in the information provided by SS/A Krietlow, was in contact with Tallahassee, and would very probably be conducting search warrants in the area later in the day. He also informed me that U.S. Customs was invited to participate due to the continuing possibility of violations of law enforced by the Customs Service. As I was already in Washington, I terminated my other business and proceeded to make contact with Detective Bradley, Intelligence Division, MPD.

Opon contacting Detective Bradley, I learned that he had initiated an investigation on the two addresses provided by the Tallahassee Police Dept. during December of 1986. An informant had given him information regarding a cult, known as the \*Pinders\* operating various businesses out of a warehouse located at 1307 4th St., N.E., and were supposed to be housing children at 3918/3920 W St., N.W. The information was specific in describing "blood rituals" and sexual orgies involving children, and an as yet unsolved murder in which the Finders may be involved. With the information provided by the informant, Detective Bradley was able to match some of the children in Tallahassee with names of children known alleged to be in the custody of the Finders. Purthermore, Bradley was able to match the tentative ID of the adults with known members of the Pinders. I stood by while Bradley consulted with AUSA Harry Benner and obtained search warrants for the two premises. I advised acting RAC SS/A Tim Holloran of my intention to accompany MPD on the execution of the warrants, received his permission, and was joined by SS/A Harrold. SS/A Harrold accompanied the team which went to 1307 4th St, and I went to 3918/20 W St.

During the execution of the warrant at 3918/20 W St., I was 1%

able to observe and access the entire building. I saw large quantities of children's clothing and toys. The clothing consisting of diapers and clothes in the toddler to pre-school range. No children were found on the premises. There were several subjects on the premises. Only one was deemed to be connected with the Finders. The rest were renting living space from this individual. Be was identified as Stuart Miles SILVERSTONE, DOB/061941, U.S. Passport No. 010958991. SILVERSTONE was located in a room equipped with several computers, printers, and numerous documents. Cursory examination of the documents revealed detailed instructions for obtaining children for unspecified purposes. The instructions included the impregnation of female members of the community known as Finders, purchasing children, trading, and kidnapping. There were telex messages using MCI account. numbers between a computer terminal believed to be located in. the same room, and others located across the country and in ... foreign locations. One such telex specifically ordered the purchase of two children in Hong Kong to be arranged through a contact in the Chinese Embassy there. Another telex expressed an interest in "bank secrecy" situations. | Other documents identified interests in high-tech transfers to the United Kingdom, numerous properties under the control of the Pinders, a keen interest in terrorism, explosives, and the evasion of law enforcement. Also found in the "computer room" was a detailed summary of the events surrounding the arrest and taking into custody of the two adults and six children in Tallahassee, Plorida on the previous night. There were also a set of instructions which appeared to be broadcast via a computer network which advised participants to move "the children" and keep them moving through different jurisdictions, and instructions on how to avoid police attention.

One of the residents was identified as a Chinese National. Due to the telex discovered referencing the Chinese Embassy in Hong Kong, he was fully identified for future reference: WANG/Gengxin, DOB/092747, POB/rianjin, People's Republic of China Passport No. 324999, entered the U.S. on January 22, 1987, admitted until December 31, 1987. He is in the U.S. as a graduate student in the Anatomy Department of Georgetown University. His Visa was issued on November 10, 1986, in London, England, number 00143.

During the course of the evening, I contacted Sector 4 to initiate a TECS check on SILVERSTONE, and initiate an archives check on him for the last four years. I also contacted SS/A Holloran to keep him advised of the proceedings and asked for and received permission to contact SS/A John Sullivan of the CPPU to query some names through the CPPU data base. SS/A Holloran told me he would call Southeast Region Headquarters to keep them posted on the proceedings as well. I later contacted SS/A Sullivan for the stated purpose, and in the discussion that followed, I gave him some background on the purpose of the request. I advised him that the information was not for dissemination at Headquarters, that Region was being notified,

56

and that Region would probably contact Headquarters later if Jeemed necessary. SS/A Sullivan assured me that the information would go no further until official notification was made by Region. No positive matches were obtained from the CPPU data base. I was later joined at the W Street address by SS/A Harrold. SS/A Harrold advised me that there were extremely large quantities of documents and computer equipment at the warehouse, and that MPD was posting officers inside the building there and sealing the building until morning, in which a second warrant for that premises would be obtained and executed. SS/A Harrold also advised me that the news media had been notified and had been waiting for the execution of the warrant at the 4th Street address. Detective Bradley later stated that the MPD Public Information Officer had been contacted by a Tallahassee reporter. When it became apparent the PIO had no information on the search warrants, the reporter contacted local media representatives and a check of public . records containing the affidavits for the search warrants . disclosed the locations and purpose of the warrants. Detective Bradley surmised that someone on the Tallahassee Police Department was the original source of information for the press. I advised SS/A Holloran of the involvement of the press, and he stated that he would, in turn, relay the information to Region. SS/A Harrold and I assisted in the transport of the evidence seized pursuant to the warrant and cleared MPD after the press left the area.

On Friday, 2/6/87, I met Detective Bradley at the warehouse on 4th Street, N.E. I duly advised my acting group supervisor, SS/A Don Bludworth: I was again granted unlimited access to the premises. I was able to observe numerous documents which described explicit sexual conduct between the members of the community known as finders. I also saw a large collection of photographs of unidentified persons. Some of the photographs were nudes, believed to be of members of Finders. There were numerous photos of children, some nude, at least one of which was a photo of a child "on display" and appearing to accent the child's genitals. I was only able to examine a very small amount of the photos at this time. However, one of the officers presented me with a photo album for my review. The album contained a series of photos of adults and children dressed in white sheets participating in a "blood ritual." ritual centered around the execution of at least two goats. The photos portrayed the execution, disembowelment, skinning and dismemberment of the goats at the hands of the children. this included the removal of the testes of a male goat, the discovery of a female goat's "womb" and the "baby goats" inside the womb, and the presentation of a goats head to one of the children.

Further inspection of the premises disclosed numerous files relating to activities of the organization in different parts of the world. Locations I observed are as follows: London, Germany, the Bahamas, Japan, Hong Kong, Malaysia, Africa, Costa Rica, and 'Europe.' There was also a file identified as

, 57

'Palestinian.' Other files were identified by member name or "project" name. The projects appearing to be operated for commercial purposes under front names for the Finders. There was one file entitled 'Pentagon Break-In,' and others which referred to members operating in foreign countries. Not observed by me but related by an MPD officer, were intelligence files on private families not related to the Finders. The process undertaken appears to have been a systmatic response to local newspaper advertisements for babysitters, tutors, etc. A member of the Finders would respond and gather as much information as possible about the habits, identity, occupation, etc., of the family. The use to which this information was to be put is still unknown. There was also a large amount of data collected on various child care organizations.

The warehouse contained a large library, two kitchens, a sauna, hot-tub, and a "video room." The video room seemed to be set up as an indoctrination center. It also appeared that the organization had the capability to produce its own videos. There were what appeared to be training areas, for children and what appeared to be an altar set up in a residential area of the warehouse. Many jars of urine and faces were located in this area.

I should also mention that both premises were equipped with satellite dish antennas. '

I discussed the course of action to be taken by MPD with Detective Bradley. He stated he was only interested in making the child abuse case(s). I was assured that all of the evidence would be available to U.S. Customs in furtherance of any investigative/criminal action pursued. MPD personnel were to begin around the clock review and sorting of the evidence until completed. Customs will have access after this is accomplished. This will include several U.S. Passports discovered during the search.

Upon leaving the 4th Street premises, I encountered a news media representative and was asked the reason behind U.S. Customs involvement in the investigation. I advised the reporter that I could not discuss anything and referred her to the RAC/DC. I left immediately thereafter.

There is no further information available at this time. It should take three to five days for all the information to be sorted, reviewed, logged by the MPD. I will maintain contact with Detective Bradley until the evidence is again accessible.

Respectfully submitted,

Ramon J. Martinez

### DETAILS OF INVESTIGATION:

On March 31, 1987, I contacted Detective James Bradley of the Washington, D.C. Metropolitan Police Department (MPD). I was to meet with Detective Bradley to review the documents seized. pursuant to two search warrants executed in February 1987. The meeting was to take place on April 2 or 3, 1987.

On April 2, 1987, I arrived at MPD at approximately 9:00 a.m. Detective Bradley was not available. I spoke to a third party who was willing to discuss the case with me on a strictly "off the record" basis.

I was advised that all the passport data had been turned over to the State Department for their investigation. The State Department in turn, advised MPD that all travel and use of the passports by the holders of the passports was within the law and no action would be taken. This included travel to Moscow, North Korea, and North Vietnam from the late 1950's to mid 1970's.

The individual further advised me of circumstances which indicated that the investigation into the activity of the FINDERS had become a CIA internal matter. The MPD report has been classified secret and was not available for review. I was advised that the PBI had withdrawn from the investigation several weeks prior and that the FBI Poreign Counter Intelligence Division had directed MPD not to advise the FBI Washington Field Office of anything that had transpired.

No further information will be available. No further action will be taken.

### CIA MIND-CONTROL

### CONCEPTS

# CIA Experiments with Mind Control on Children

by Jon Rappoport

ne CIA mind-control
apparatus has been wellknown since 1975, when
10 large boxes of documents were released pursuant to Freedom of Information
Act requests.

Several good books were then written on the subject of the CIA program known as MK-ULTRA Officially spanning ten wears from 1952-62, MK-ULTRA involved the use of LSD on unwitting military and civilian subjects in the United States. LSD and more powerful compounds were given under duress as brainwashing and truth-serum drugs. The program's aim was to find drugs which would irtessibly bring out deep confessions or wipe a subject's mind clean and program hap or her as "a robot agent."

In experimental test situations, people were given acid without their knowledge, then interrogated under bright lights with doctors sitting in the background taking notes. Threats would be made. The test subjects were told that their LSD "downer trips" would be extended indefinitely if they refused to reveal their closely-guarded military secress. The people being interrogated in this way were CIA employees, U.S. military personnel and, abroad, agents suspected of working for the other side in the Cold War. Long-term overtee debilitation and several documented deaths resulted. Much much more could be said about MK-CLTRA.

None of this prepared people for the explosive testimony made on March 15, 1905, in Washington, D.C., before the President's Committee on Radiation, however, in unpublicized sessions, New Orleans therapist Valerie Wolf introduced two of her patients who had uncovered memories of being part of extensive CIA brainwashing programs as young children (in one case, starting at age seven). Their brainwashing included torture, rape, electroshock, powerful drugs, hypnosis and death threats. According to their testimony the CIA then induced aninesia to prevent their recalling these terrifying sessions.

Both Wolf and her patients stated that they recovered the memories of this CIA program without regression or hypnosis techniques. In other words, these patients spontaneously discovered this information about themselves and their pasts.

Although the committee was mainly concerned with radation, they per mitted Valerie and her patients to testify because, astonishingly, several doctors who had administered the mind-control experiments had also been identified by other Americans secretify exposed to radiation. Apparently there was a crossover. Prominent names surfaced in the March 15 testimony: Richard Helms, former head of the ClA, Dr.

Sidney Gottlieb, who ran MK-

ULTRA and Dr. John Gittinger,

Crottheb's protegé. These men and others were directly accused of participating in grisly mind-control efforts on children.

Predictably, this testimony received no media attention

I now have it all, including many pages submitted to the committee that will likely never be released as part of their final report. Only a small percentage of the pages were read about at the hearing. Included are corroborating state ants for their therapists around the country and several of their patients. I have now released all of this testimony as a book I. S. Government Mind-Control Experiment: On Children

hen the sickening shock starts to wear off, deeply disturbing questions flood one's mind: Just what was this CIA program? How extensive was it? What was its purpose?

From what I have been able to discover so far, many American children, as well as children from Mexico and South America, were used over a period of about 40 years, starting around 1948. In fact, the program may still be going on Doctors and agents who administered it wanted to obtain control over the minds of these children, ostensibly to create superagents who wouldn't remember even what missions these superagents who wouldn't remember even what missions the

carried out, because of hypnotically induced amnesia (which could be removed by their controllers and reinstalled at will)."

Children were trained as sex agents, for example. with the job of blackmailing prominent Americansprimarily politicians, businessmen and educators, A great deal of filming was done for this purpose. Eventually, people from the inner core of the CIA program filmed each other, and some of the centers where children were used as sex agents got out of control and turned into ClA-operated sex rings.

Some children were considered expendable and simply murdered.

One person who states that he was in this program as a child said, off the record

They tried out their brainwishing techniques on the kids from Mexico and South America. They were considered expendable. But on another echelon of the program, they went after the best and the brightest American kids. Making perfect agents to combat the Soviets wasn't, I don't think, their ulumate objective. I can't remember what that was,

At this point, I made a suggestion:

Well, if they were choosing the best and brightest, maybe they figured these kids would one day rise to important positions in the society, and they wanted to gain long-term control over them, so they would be under their thumb, so they could tap them at will-a way of controlling the future society.

"Maybe," he said. "The Nazis gained control over the intelligentsia in Germany. That was a very key step in their dominance. That was the first thing they did"

"This smells very much like a Nazi program in the U.S.," I said. "I don't mean all the controllers were German, but the style of it, the insanity

He said, "They brought over a lot of Nazi doctors after the war and not just to build sockets-for a lot of projects."

ther people who said that they had been used as children in the program remember that doctors with German accents were definitely present at the sessions.

One therapist, who shared this information informally with colleagues around the country, states that, so far, the oldest person she has heard of who was in the program is now 52; the voungest is now nine

Since a number of people who were brainwashed, tortured and drugged in these experiments try to resolve their experiences in therapy, psychiatrists and other professional therapists are hearing these stories. They are told, for example, that CIA controllers sometimes dressed up in Satanic costumes to further traumatize the children, also providing a cover that wouldn't be believed if the children ever talked

It is worth noting that there is a movement to discredit these "recovered" memories, and the most prominent group, the False Memory Syndrome Coundation (FMSF), has several board members with CIA or military-intelligence connecnons-including the notorious Dr. Louis "Jolly" West of UCLA, who tried to establish a center for "the study of pro-

lence" at the university in the 1970s. His center's specialty would have been psychosurgery, a horrendous melting of brain connections supposedly to curb people's "violent tendencies."

FMSF maintains that a person always remembers abuse done to him or her, and therefore any new recovery of it in therapy is false and must have been fabricated through imisleading suggestions by the therapist. While it is certainly true that such inducement happens in therapy, the blanket statement rhat all recovered memory is invented is unsub-

In a written statement to Dr. Wolf that was included in her testimony to the president's committee, well-known researcher and psychiatrist. Colin Ross said.

Published \_inles in my files include descriptions of administration of 150 meg of LSD to children age 5-10 years on a daily basis for days, weeks, months, and in a few cases even years. No recurrens at Tulane, Yale, and Harvard did extensive severch on brain electrode implants with intelligence funding, and combined brain implants with large numbers of drugs including ballucinogens.

Ross base thus report on his more than 20 years of investigating CL\ mind control.

Chris De Nicola, one of Dr. Wolf's patients who testified before the president's committee, named her controller as a Dr. Greene a name reported by several other mind-control subjects. It may well be that this name was a cover used by various CIA and military-contracted experimenter-to-turers Here is a quote from her testimony:

Dr Gree wi used me in radiation experiments both for the purpose of determining the effects of radiation on various parts of m. Jody and to terrorize me as an additional trauma in the mind control experiments. She was eight years old.

The rest of the experiments took place in Tucson, Arizona. out in the desert I was taught how to pick locks, be secretive. use my obotographic memory to remember things and a technique to muchhold information by repeating numbers to myself. Is there a precedent for this kind of sadistic treatment by CIA and military personnel: Indeed there is. Here is a quote from the introduction to my book. U.S. Government Mind-Control Experiment On Children. It contains information from reliable published sources such as The Search for the Manchuran. Candidate. by John Marks, Acid Dreams, by Martin Lee and The Mind Manipulators, by Alan Scheffun. In part, these authors derived their information on the CIA and MR-CITRA from the ten hoves of information released suddenly in 1935 by the agency in response to Freedom of Information Act requests.

Dr. Robert Heath of Tulane Conversity, as early as 1955, working for the Army, gave patients LSD while he had electrode implanted deep inside their brains.

Canadian researcher. Dr. Fix an Cameron, under longterm GI Contract, attempted to depattern and reprogram by psychiatric pattents, personalities wholesale. He started with 15 to 6 Selaws of sleep theorems, during which a pattent was kept under nearly 22 hours a day, through the administration of cockitals of Thompson. Nemoutal, Seconal, Veronal, and Phenergam. Throughout this sieep period, the patient would be awakened too or three times a day for electroshood treatments, given at an intensity, 20-40 times the normal contraling-producing treengts.

In the mid-1980 Paul Flow, M.D., a man who would become Commusiumer of Mental Hygiene for the state of New York, then a Liborer in the field for the CIA, gave a pseudoneurotic vehicophrenii, patient mescaline. The patient and a not-unfamiliur heaven-and-hell journey on the compound But Hoth followed the up with a transcribital leucotomy. Hoth also gave a patient LSD, and a local anesthesis, and then proxeeded to remove pieces of cerebral cortex, aximg at various moments—hether the patient's perceptions were changing.

laudia Mullin, the other of Dr. Wolf's patients who tesuffied before the President's Committee on Radiation, said her experiences with CIA mind-control experiences began when she was seven years old:

In 1958. I was to be rested, they told me, by some important

any of their questions. Then, since the test 'might hiort, I would be given 'shots, x-rays, and a few jolts of electricity. I was instructed 'not to look at anyone's face too hard and to ignore names, 'at this was 'a very secret project' but to be brave and all those things would help me forget.

A Dr. John Gittinger tested me and Dr. Cameron gave me the shocks and Dr. Greene the x-ravs. By the time I left to ga home, just like every time from then on, I would recall nothing of my tests or the different doctors. I would only remember whatever explanations Dr. Robert G. Heath lof Tulane Medical Schooll gave me for the odd bruises, needle mark, burns on my head and fingers and even the genital soreness. I had no reason to believe otherwise. Already, they had begun to control my mind!

The next year. I was sent to a place in Maryland called Deep Creek Cabins to learn bow to rexually please men. Also, I was taught bow to coerce them into talking about themselves. It was Rithard Helms (Deputy Director of the ClA), Dr. Gottlieb, Captain Georg, White and Morse Allen who all planned on filming as man, high government and agency officials and heads of academic institutions and foundation as possible. I was to become a regular little spy for them after that stummer, eventually entrapping unwitting men, including themselves, all with the use of a hidden camera. I was only nine when this kind of sexual humilation began.

Captain George White was a notorious agent for the CIA. He set up a brothel in San Francisco in the 1960s and, using hidden cameras, filmed men having sex with prostitutes. The men's drinks were "spiked" with LSD. In 1950, Morse Allen, another important CIA man, was appointed head of Project. BLUEBIRD, another CIA mind-control program.

Ms Alullin states that she was adopted when she was two years old. By the time she reached seven she had alread, heen abused extensively by her mother. Her mother apparently turned her over for "testing" to CIA-connected people, and Claudis then entered a 27-year period of what can only be called enslavement. Claudia states that she has been monitored, that she is still monitored and watched by agency related people, including a medical doctor. Now living in New Orleans, she has given information to local police authorities about her situation. In her testimony to the president's committee, Claudia remarked,

Although the process of recalling these arractites is certainly not an easy task, nor is it without some danger to myself and my family . . . I feel the risk is worth taking.

Claudia's therapist, Dr. Wolf, has written to the president's committee,

To the best of my knowledge. [Claudia] has read nothing about mind control or CLI covert operations. Since she decided to listen carefully and remember as much as she could about convertations among the researchers, her memoric. I are extraordinarily complete. Manipulators, for calidation and be has confirmed that she has knowledge of events and people that are not published anywhere, that some of her memories contain new information and that some are already known and published. Some of our memories have been confirmed by tamily members. She has also shown me old scrapbooks where she wrote notes to remember what was happening to her and hid the notes under pictures in the scrapbook.

I spoke with Alan Scheflin in May of this year. He said he had found one piece of information Claudia had mentioned in her recollections that had no precedent in published material. It involved a connection between two government researchers.

This is just the tip of the iceberg on the 130 pages of testimony given before the President's Committee on Radiation, and it is also just the beginning of a history that will undoubtedly widen in the coming months and years. Dr. Wolf told me that when word got around she was going to testify before the president's committee, she was contacted by about 40 therapists "in just the 10 days leading up to my rup to Washington." The therapists had heard similar CIA mind-control stories from their own patients. Many of these professionals are afraid to go on the record about their patients' stories, as censure from their professional societies is a reality. The political mood these days is not conducive to granting an aura of credibility to revelations of CIA brainwashing.

So what else is new?

### CIA's Gottlieb Ran LSD Mind Control Testing

■ Scientist, who died at 80, oversaw invention of devices for assassination and gave 'acid' to human guinea pigs.

By ELAINE WOO TIMES STAFF WRITER

James Bond had Q, the scientific wizard who supplied 007 with dazzling gadgets to deploy against enemy agents. The Central Intelligence Agency had Sidney Gottlieb, a Bronx-born biochemist with a PhD from Caltech whose job as head of the agency's technical services division was to concoct the tools of espionage: disappearing inks, poison darts, toxic handker-chiefs.

Gottlieb once mailed a lethal handkerchief to an Iraqi colonel and personally ferried deadly bacteria to the Congo to kill Prime Minister Patrice Lamumba. It wasn't his potions that eventually did in the two targets, but Gottlieb, once described by a colleague as the ultimate "good soldier," soldiered on.

Poisons and darts were not his sole preoccupation during 22 years with the CLA. He labored for years on a project to unlock and control the mysterious powers of lysergic acid diethylamide, or LSD. Could it be a potent spy weapon to weaken the minds of unwilling targets?

In the 1950s and 1960s, answering that question was one of Gottlieb's missions in MKULTRA, the code name for the agency's secret experiments to probe the effects of mind-altering drugs. Chief among them was LSD, discovered by Dr. Albert Hofman, a Swiss chemist, in 1943.

1943.

By the early 1950s, the CIA, fearful of LSD falling into Soviet hands, had cornered the market on the drug, which in minute doses could produce overwhelming sensations ranging from kaleidoscopic acuity to temporary insanity. The agency also started to fund research, covertly funneling hundreds of thousands of dollars to academics in prestigious institutions around the country who tried the drug themselves and reported the results to Gottlieb.

Associated Pres

Sidney Gottlieb in 1977.

Gottlieb and his associates in MKULTRA also took LSD "trips," although the concept of tripping would not enter the American lexicon for another decade. They laced coffee with LSD and served it to each other without warning. then observed each other's reactions. Later Gottlieb expanded the field tests to subjects outside the agency-drug addicts, prostitutes. prisoners, mental patients-people who were unlikely to complain and even less likely to be believed if they did. Among the dosed were hookers and their clients in a CIA-sponsored brothel in San Francisco, later the epicenter of the LSD explosion.

One human guinea pig was subjected to an astounding 77-day trip. Some subjects suffered chronic mental problems after being dosed. One person—an Arnny germ warfare researcher—sank into dark depression and paranoia, leaping to his death from the 10th floor of a New York hotel several days after being slipped an LSD Mickey Flnn at a CIA retreat. The CIA covered up its role in his demise for two decades, and barely reprimanded

In the early 1960s, Gottlieb was promoted to the highest deputy post in the technical services operation. By 1967, he had risen to the top of the division, guided by his longtime CIA mentor, Director Richard Helms. At that time, LSD

was not a secret anymore. While the CIA was still examining the drug's possibilities as a means of mind control, many young Americans were dropping the hallucinogen as a vehicle of mind expansion and recreation. America was tuning in, turning on and dropping out, thanks, in part, to the CIA's activism in the '50s in the name of national security.

was not until 1972 that Cotlt was not until 1972 that Cottlieb called a halt to the experiments with psychedelics, concluding in a memo that they were "too unpredictable in their effects on individual human beings... to be operationally useful."

He retired the same year, spending the next few decades in eclectic pursuits that defied the stereotype of the spy. He went to India with his wife to volunteer at a hospital for lepers. A stutterer since childhood, he got a master's degree in speech therapy. He raised goats on a Virginia farm. And he practiced folk dancing, a lifelong passion despite the handicap of a clubfoot.

A malignant, real-life Q, or an eccentric genius whose intentions were honorable and just?

Gottlieb led the agency in 149 mind control experiments, of which about 25 were conducted on unwitting subjects. According to the survivor of one victim, the way Gottlieb duped American citizens was nothing but despicable.

Less black and white in his assessment is John Marks, author of the definitive book on the CIA's mind control programs, "The Search for the Manchurian Candidate." Marks sees Gottlieb as an unabashed patriot who nonetheless "crossed the same ethical lines we hanged German doctors in World War II for."

There is also the view of former CIA psychologist John Gittinger, who says his close friend was a gentle man whose actions were widely misunderstood. The agency's LSD experiments bloomed in the era of Josef Stalin and Sen. Joseph McCarthy, and "during that time of Cold War," Gittinger said recently from his home in Norman, Okla., "the attitude we had and the agency had was we were still fighting a war. And when you are fighting a war, you do things you might not crdinarily do."

Gottlieb died on March 7 in Washington, Va. He was 80. His family did not divulge the cause of his death.

### OFFICE OF THE CHIEF MEDICAL EXAMINER BOARD OF MEDICOLEGAL INVESTIGATIONS

### UNIFORM MEDIA STATEMENT

7 August, 1995 0900 hours

The staff and consultants of this office continue to analyze as yet unidentified human tissue recovered from the Murrah Building bombing.

Among this tissue is a traumatically amputated left thigh and lower leg recovered on May 30, 1995. This leg was clothed in a black military type boot, two socks, and an olive drab blousing strap. Anthropologic analysis of this specimen reveals the individual to be light skinned, dark haired, probably less than 30 years of age, male (75% probability), and having an estimated height of 66 plus or minus 3 inches. This leg has not been matched to any of the known victims or survivors.

ONA and other scientific analyses on this and other tissue continue at our office and in the FBI laboratories in Washington D.C. Once these scientific investigations are completed further information will be released.

### Probe: CIA didn't know of Arkansas smuggling

Associated Press

WASHINGTON — An internal CIA investigation found no evidence the intelligence agency knew anything about alleged drug smuggling activities at an airport in Mena, Ark., where the intelligence agency once held a secret training exercise.

"No evidence has been found that the CIA was associated with money laundering, narcotics trafficking, arms smuggling or other illegal activities at or around Mena, ark., at any time," said the report, made public Friday.

The investigation was conducted by Frederick P. Hitz, the CIA inspector general. The agency released a six-page unclassified summary of his findings.

CIA Director John Deutch ordered the investigation last spring in response to a request in February from House Banking Committee Chairman Jim Leach, R-lowa. Leach's panel is conducting its own investigation of aleged money laundering in the Mena area, stemming from the committee's Whitewater inquiry and related issues.

Dave Runkel, a spokesman for the committee, said allegations that the CIA was somehow involved in running guns to Nicaragua and that CIA-chartered planes may have been used to smuggle cocaine into the United States date back to the Reagan and Bush administrations.

A new book, "Boy Clinton," by R. Emmett Tyrrell, editor of the conservative American Spectator' magazine, alleges that President Clinton, then the governor of Arkansas, knew about illegal activities at Mena.

At a news conference in 1994, Clinton was asked about the allegations and replied that he knew nothing about any illegal activity at the Mena Intermountain

Airport.

"The airport in question, and all the events in question, were the subject of state and federal inquiries," he said. "It was primarily a matter for federal jurisdiction. The state really had next to nothing to do with it."

The CIA's Hitz said "no evidence has been found to indicate that CIA or anyone acting on its behalf participated in, or otherwise had knowledge of, any illegal or improper activities in Mena, Ark., or the area north of Mena known as Nella, Ark."

The inspector general said the agency was involved in two activities at the airport over a three-

year period.

The CIA engaged in a joint training operation at the airport with another federal agency, the report said.

Also, the agency contracted with businesses at the airport "to perform routine aviation-related services on equipment owned by the CIA," he said.

The U.S. Government has a new ground-based "Star Wars" weapon which is being tested in the remote bush country of Alaska. This new system manipulates the environment in a way which can:

- \* Jam all global communications systems.
- \* Change weather patterns over large areas.
- \* Interfere with wildlife migration patterns.
- \* Negatively affect your health.
- \* Unnaturally impact the Earth's upper atmosphere.

The U.S. military calls its zapper HARRP (High-frequency Active Ruroral Research Program). But this skybuster is not about the Northern Lights. The device will turn on lights never intended to be artificially manipulated.

Their first target is the electrojet -- a river of electricity that flows thousands of miles through the sky and down into the polar icecap. The electrojet will become a vibrating artificial antenna for sending electromagnetic radiation raining down on the earth. The U.S. military can then "H-ray" the earth and talk to submarines. "In the nuclear age, Eisenhower could not risk telling the Russians or Chinese that we're willing to go to all-out war to get our prisoners back," said Al Santoli, a congressional investigator who helped gather recently declassified documents.

The documents were obtained from the Dwight DE Eisenhower Presidential Library and other government depositories by the House National Security subcommittee on military personnel.

Re: Published information regarding past defense contracting activity under Ireco

Dear sir or madam

We are researching background information on a government contract which Ireco was selected to bid on. Public information was published in "Defense Daily" in the Monday June 18th Issue of 1990 on page 450. The article lists a "Tactical Explosives Subsystem" (TEXS) as the item contracted under [DAAA21-90-C-0045] dated (6-14-90). We suspect that this contract number is a misprint, or that the date issued is wrong. Would you be so kind as to review your records and write back to us to inform us if this contract number is correct or if the publisher has inadvertently printed an incorrect contract number or date.

If you should also have an introduction or company profile brochure we would be interested in receiving more general information on your company. Our interest is purely academic and we have no litigation motives of any sort, nor are we working for any clients in this mater. Tapes Depict Proposal to Thwart Bomb Used in Trade Center Blast THURSDAY, OCTOBER 28, 1993

By RALPH BLUMENTHAL

NEW YORK, Oct. 27 - Law-enforcenent officials were told that terrorists vere building a bomb that was eventuily used to blow up the World Trade enter, and planned to thwart them by ecretly substituting harmless powder or the explosives, an informer said

The informer was to have helped the lotters build the bomb and supply the ake powder, but the plan was called off y an F.B.I. supervisor who had other deas about how the informer, Emad A alem, should be used, the informer

After the bombing, he resumed his undercover work, in an undated transcript of a conversation from that period, Mr. Sulem recounts a talk he had had earlier with on agent about an unnamed F.B.I. supervisor who, he said, "came and messed it up."

'He requested to meet me in the hotel," Mr. Salem says of the supervisor. "He requested to make me to testify and if he didn't push for that, we'll be going building the bomb with a phony powder and grabbing the people who was involved in it. But since you,

The transcripts, which are stamped "draft" and compiled from 70 tapes recorded secretly during the last two years by Mr. Salem, were turned over to defense lawyers in the second bombing case by the Government on Tuesday under a judge's order barring lawyers from disseminating them. A large portion of the material was made avail-

able to The New York Times.
In a letter to Federal Judge Michael B. Mukasey, Andrew C. McCarthy, an assistant United States attorney, said that he had learned of the tapes while debriefing Mr. Salem and that the in-former had then voluntarily turned them over. Other Salem tapes and transcripts were being withheld pending Government review, of "security and other issues," Mr. McCarthy said.

### Kunstler Accuses U.S.

William M. Kunstler, a defense law yer in the case, accused the Covern-ment this week of improper delay in handing over all the material. The transcripts he had seen he said, "were franscripts de nau seen de satu werte filled with all sorts of Government mis-conduct." But citing the judge's order, he said he could not provide any de-

"Ou get paid guys, to prevent problems like this from happening."

Mr. Salem talks of the plan to substitute harmless powder for explosives in the trade center bombing during another conversation with agent Floyd. In that conversation, he recalls a previous discussion with Mr. Anticev.

"Do you deny," Mr. Salem says he told the other agent, "your supervisor is the main reason of bombing the World Trade Center?" Mr. Salem said Mr. Anticev did not deny it. "We was handling the case perfectly well until the supervisor came and messed it up, upside down.

### Studied for Signs of Hiegality

The transcripts are being closely studied by lawyers looking for signs that Mr. Salem and the law enforcement officials, in their zeal to gather evidence, may have crossed the legal line into entrapment, a charge that defense counsel have already raised.

But the transcripts show that the officials were concerned that by associating with bombing defendants awaiting trial in the Metropolitan Correctional Center, Mr. Salem might have been accused of spying on the defense.

### Anti-terrorism legislation on fast track

By Leslie Phillips and Lee Michael Katz USA TODAY

President Clinton, seeking to expand the government's power against terrorism in the wake of the Oklahoma bombing, says he won't ignore individual rights.

"I don't think we have to give up our liberties," Clinton said Sunday on CBS's 60 Minutes. "We do have to take more seriously threats to our liberies.

Clinton has put all federal ouildings on a heightened secunty alert until a study of their vulnerability is completed.

He urged formation of a counterferroris unit headed

by the FBL And he ordered preparation of a presidential directive authorizing further steps to compa, te orism.

For two months, an anti-terrism bill proposed by Clinton affed in Congress. Last Wednesday's bombing

addenly changed that. The proposal, to be rewrit-

an combining several bills in-

troduced by House and Senate leaders, is on a fast track toward bipartisan passage.

Clinton's bill, originally aimed at international terrorism, will include domestic terrorism. The bill:

► Establishes a Domestic Counterterrorism Center, headed by the FBI, and creates a special fund for infiltrating suspected terrorist groups.

Gives the FBI increased authority to search phone logs and hotel and motel registers, and greater access to creditcard records.

▶ Creates a federal crime of "international terrorism committed within the United States," punishable by death if someone dies as a result of a terrorist's act.

► Expands federal wiretapping and surveillance powers.

Forbids fund-railing by or-

ganizations the president designates as terrorist.

▶ Permits evidence from secret sources to be used in deportation proceedings.

► Allows the Justice Department to investigate crimes based on the political beliefs and as ociations of suspects.

Arab-Americans say the proposals ignite anti-Arab sentiment. Civil libertarians say they trample constitutional rights. Their leaders discuss their objections today with Justice Department offici-"I can understand their con-

Clinton's national security adviser, Tony Lake, says. "It's aimed at organizations that are supporting terrorism, and we are unapologetic about opposing those organizations."

House Speaker Newt Gingrich, R-Ga., says Congress should make it easier to charge people who are aware of terrorist plots, even if they're not directly involved in them.

"I think what a free society has to do." Ginerich says, "Is draw a very sharp distinction between free speech and crim-

Cinerich was ange A Saturday, after a visit to the Oklahoma bombing site, when a re-porter asked if GOP criticism of government bureaucrats

had encouraged the attack on a government building.

"It is grotesque to suggest that anybody in this country who raises legitimate questions

about the size and scope of the federal government has any implication in this," he said.

### McVeigh's Lawyers laim Bombing Cover-up

New evidence suggests the U.S. government is involved in a massive cover-up concerning the facts behind the bombing of the Alfred P. Murrah Federal Office Building in Oklahoma City.

EXCLUSIVE TO THE SPOTLIGHT BY MIKE BLAIR

At least one member of the federal grand jury that handed down indictments against Timothy J. McVeigh and Terry L. Nichols—accused bombing suspects in the April 19 Oklahoma City bombing—has spoken out against grand jury proceedings.

The juror has revealed the indictments were "fatally flawed" and federal prosecutors withheld vital information from the grand jurors impaneled to hear

testimony

As a result, Steven Jones and Richard H. Burr, lawyers representing McVeigh, have filed a motion seeking dismissal of the indictment against their client,

charging misconduct and a breach of

The grand juror, upset with the course of the proceedings, discussed his concerns with at least two publications; the monthly magazine Media Bypass and the Daily Oklahomian in Oklahoma City, as well as his representative in Congress and several other people.

MYSTERY MAN

The grand jurar is particularly upset that prosecutors stifled the panel from asking questions about the bombing investigation and particularly about the so-called "John Dos No. 2," who has never been located and whom foderal investigators now contend never existed.

The government made a deliberate attempt to cause the grand jury to focus only upon an indictment of Nichols and AcVoigh and purposely did not bring to the grand jury evidence which would establish the role of others or a larger conspiracy. Jones said us his motion dismiss the indictment against McVoigh.

The grand juror has stated prosecutors did not seem interested in pursuing leads congerning John Doe No. 2 and did not want members of the panel asking questions about him. The grand juror further stated he is "satisfied that the government" knows the identity of the mysterious man, the identity of the mysterious man, the actual bombing.

The panel member also stated federal prosecutors dujed Michael Fortier of Arizona into pleading guilty to playing a lesser part in the bombing. They also threatened that his wife, Lori, would be sent to jail.

FORTIER RAILROADED?

They had zero on this poor old boy, this little boy and girl in Arizons, the grand jurc's said; But prosecutors insisted you've got to [confess] so we don't send your wife to jail; Ur-All they, had him on was transporting stolen guns interstate.

The New York Times has reported the jurer contended that prosecutors intimidated the jurer and pressed them to confine the investigation to the activities of Mr. McVeigh and the other defendant in the case, Terry L. Nichols, to meet a deadline seat by federal guidelines on providing speedy, trials. In the motion for dismissal, Jones said

In the motion for dismissal, Jones said the grand jurors from acting the grand jurors from acting the grand juror from acting the grand juror requests for precluded grand juror requests for presentation of evidence, and discouraged or elevant questions.

"Because of feelings of intimidations coercion and lack of independence, members of the graid ury beganite contact at least three, and possibly more outside media sources, members of the legislature and other persons who had experience in law enforcement in order to voice their complaints." It is a support to the complaints. It is a support to the complaints.

to voice their complaints.

Jones said the jurgr's complaints indicated the prosecutors direcumstribed grand jury independence by limiting the scope of its inquiry, withholding anything that might indicates, hreader conspiracy or a different conspiracy or a different conspiracy or a different conspiracy.

The grand jurer also indicated that some members of the panel believed Nichols, an Army pal of McVeigh, tried to stop the truck bombing. Nichols got charged with everything McVeigh, did, and he shouldn't have, the grand jurer stated.

Nichols was an unwilling accomplice in the end . . He backed out. He didn't want to do it. He refused at one point to help McVeigh build the bomb

the difference between live and dead matter. We pass by with deserved contempt the pseudo-scientific experiments of American charlatans who claim to have established that weight is lost at the moment of death, and the unsupported statements of alleged clairvoyants that they have seen the soul issuing like a vapour from the mouth of persons in articulo mortis; but his experiences as an explorer have convinced the Master Therion that meat loses a notable portion of its nutritive value within a very few minutes after the death of the animal, and that this loss proceeds with ever-diminishing rapidity as time goes on. It is further generally conceded that live food, such as oysters, is the most rapidly assimilable and most concentrated form of energy. Laboratory experiments in food-values seem to be almost worthless, for reasons which we cannot here enter into; the general testimony of mankind appears a safer guide.

It would be unwise to condemn as irrational the practice of those savages who tear the heart and liver from an adversary, and devour them while yet warm. In any case it was the theory of

<sup>&</sup>quot;kill" steel, and "raise it from the dead"; and flies drowned in ice-water can be resuscitated. That it should be impossible to create high organic life is scientifically unthinkable, and the Master Therion believes it to be a matter of few years indeed before this is done in the Lboratory. Already we restore the apparently drowned. Why not those dead from such causes as synope? If we understood the ultimate physics and chemistry of the brief moment of death we could get hold of the force in some way, supply the missing element, reverse the electrical conditions or what not. Already we prevent certain kinds of death by supplying wants, as in the case of Thyroid.

<sup>1.</sup> One can become actually drunk on oysters, by chewing them completely. Rigor seems to be a symptom of the loss of what I may call the Alpha-energy and makes a sharp break in the curve. The Beta and other energies dissipate more slowly. Physiologists should make it their first duty to measure these phenomena; for their study is evidently a direct line of research into the nature of Life. The analogy between the living and complex molecules of the Uranium group of inorganic and the Protoplasm group of organic elements is extremely suggestive. The faculties of growth, action, self-recuperation, etc., must be excribed to similar properties in both cases; and as we have detected, measured and partially explained radioactivity, it must be possible to contrive means of doing the same for Life.

the ancient Magicians, that any living being is a storehouse of energy varying in quantity according to the size and health of the animal, and in quality according to its mental and moral character. At the death of the animal this energy is liberated suddenly.

The animal should therefore be killed 'within the Circle, or the Triangle, as the case may be, so that its energy cannot escape. An animal should be selected whose nature accords with that of the ceremony—thus, by sacrificing a female lamb one would not obtain any appreciate quantity of the fierce energy useful to a Magician who was invoking Mars. In such a case a ram would be more suitable. And this ram should be virgin—the whole potential of its original total energy should not have been diminished in any way. For the highest spiritual working one must accordingly choose that victim which contains the greatest and purest force. A male child of perfect innocence and high intelligence is the most satisfactory and suitable victim.

I. It is a mistake to suppose that the victim is injured. On the contrary, this is the most blessed and merciful of all deaths, for the elemental spirit is directly built up into Godhead — the exact goal of its efforts through countless incarnations. On the other hand, the practice of torturing animals to death in order to obtain the elemental as a slave is indefensible, utterly black magic of the very worst kind, involving as it does a metaphysical basis of dualism. There is, however, no objection to dualism or black magic when they are properly understood. See the account of the Master Therion's Great Magical Retirement by Lake account of the Master Therion's Great Magical Retirement by Lake Pasquancy, where He "crucified a toad in the Basilisk abode".

<sup>7.</sup> A wolf would be still better in the case of Mars. See 777 for the correspondences between various animals and the "32 Paths" of Nature.

3. There is also the question of its magical freedom. Sexual intercourse creates a link between its exponents, and therefore a responsi-

bility.

The Beast 666 ordains by His authority that every man, every woman, and every intermediately sexed individual, shall be absolutely free to interpret and communicate self by means of any sexual practices whatsoever, whether direct or indirect, rational or symbolic, physiologically, legally, ethically, or religiously approved or no, provided only that all parties to any act are fully aware of all the implications and responsibilities thereof, and heartily agree thereto.

Moreover, the Beast 666 adviseth that all children shall be accustomed from infancy to witness every type of sexual act, as also the process of birth, lest falsehood fog, and mystery stupefy, their minds, whose error else might thwart and misdirect the growth of their subconscious system of

"When, where, and with whom ye will."

The phrase "with whom" has been practically covered by the comment "as ye will." One need no more than distinguish that the earlier phrase permits all manner of acts, the latter all possible partners. There would have been no furies for Oedipus, no disaster for Othello, Romeo, Pericles of Tyre, Laon and Cythna, if it were only agreed to let sleeping dogs lie, and mind one's own business. In real life, we have seen in our own times Oscar Wilde, Sir Charles Dilke, Parness, Canon Aitken and countless others, many of them engaged in first-rate work for the world, all wasted, because the mob must make believe to be "moral." This phrase abolishes the eleventh commandment, "Not to be found out," by authorizing incest, adultery, and pederasty, which every one now practices with humiliating precautions, which perpetuate the schoolboy's enjoyment of an escapade, and

make shame, slyness, cowardice and hypocrisy the conditions of success in life.

It is also the fact that the tendency of any individual to sexual irregularity is emphasized by the preoccupation with the subject which follows its factitious importance in modern society.

It is to be observed that politeness has forbidden any direct reference to the subject of sex to secure no happier result than to allow Sigmund Freud and others to prove that our every thought, speech, and gesture, conscious or unconscious, is an indirect reference!

Unless one wants to wreck the neighborhood, it is best to explode one's gunpowder in an unconfined space.

There are very few cases of "perverted hunger-instinct" in moderately healthy communities. War restrictions on food created dishonest devices to procure dainties, and artificial attempts to appease the ache of appetite by chemical counterfeits.

The south-sea islanders, pagan, amoral and naked, are temperate lovers, free from hysterical "crimes of passion," sex obsessions, and puritan persecution-mania; perversion is practically unknown, and monogamy is the general custom.

Even the civilized psychopaths of cities, forced into every kind of excess by the omnipresence or erotic suggestions and the contact of crazed crowds seething with suppressed sexuality, are not wholly past physical aid.

They are no sooner released from the persistent pressure by escaping to some place where the inhabitants treat the reproductive and the respiratory organs as equally innocent than they begin insensibly to forget their "fixed idea" forced on them by the foghorn of morality, so that their perversions perish, just as a coiled spring straightens itself when the external compulsion is removed. They revert to their natural sexual characters, which only in rare cases are other than that of another star. It may, therefore, be considered improper, as a general rule, for your sexual granification to destroy, deform, or displease any other star. Mutual consent to the act is the condition thereof. It must, of course, be understood that such consent is not always explicit. There are cases when seduction or rape may be emancipation or initiation to another. Such acts can only be judged by their results.

The most important condition of the act, humanly speaking, is that the attraction should be spontaneous and irresistible; a leaping up of the will to create with lyrical frenzy. This first condition once recognized, it should be surrounded with every circumstance of worship. Study and experience should furnish a technique of love. All science, all art, every elaboration should emphasize and adorn the expression of the enthusiasm. All strength and all skill should be flung with a spendthrift gesture on the counter of the merchant of madness. On the steel of your helmet let there be gold inlaid with the motto "Excess."

The above indications are taken from a subsequent passage of the third chapter of this Book.

The supreme and absolute injunction, the crux of your knightly oath, is that you lay your lance in rest to the glory of your Lady, the Queen of the Stars, Nuit. Your knighthood depends upon your refusal to fight in any lesser cause. That is what distinguishes you from the brigand and the bully. You give your life on Her altar. You make yourself worthy of Her by your readiness to fight at any time, in any place, with any weapon, and at any odds. For Her, from Whom you come, of Whom you are, to Whom you go, your life is no more and no less than one continuous sacrament. You have no word but her praise, no thought but love of Her. You have only one cty, of inarticulate ecstasy, the intense spasm, possession of Her, and Death, to Her. You have no act

### THE TUNNELS FOUND AT THE McMARTIN PRE-SCHOOL A PRELIMINARY REPORT

A formal report will be released when forensic tests are concluded.

### 45 Coof tunnel

- 9 foot wide subterranean entrance found under west wall of the "Dog" room (Classroom 4, Ray Buckey's classroom).
- Avocado tree roots cut on both sides of the entrance.
- Disney bag, "Copyright 1982," found 4-1/2 feet below the classroom floor and 3" to 6" in from entrance and under foundation, Classroom 4.
- Tunnel proceeded south, then east 45 feet through Classrooms 4 and 3, and north, then east 10 feet within Classroom 4.
  - Tunnels were 30" wide, 44" to 46" deep, with top of the tunnel 30" under the classroom floor.
  - The footing between Classrooms 3 and 4 was arched where the tunnel passed underneath and 12" shorter in depth at this location than same footing 12 feet to then north.
    - Four large, upright containers were found in the tunnel under the arch, obviously hand placed.
- A 9 foot wide chamber was found along the tunnel under Classroom 4. Top of chamber and top of sections of the tunnel had layers of plywood covered with tar paper which had apparently been supported by cinder blocks and 2" x 2" and 2" x 4" wooden posts found underneath.
- Tunnel features made it evident that tunnel was hand dug.

### 7 foot tunnel extending into the triplex next door

- Tunnel extended from the bathrooms off the office and Classroom 1 to the front yard of the triplex next door. Front yard concealed from street by three-car garage.
- Children described entrance and exiting tunnel in triplex yard exactly where tunnel and exit were found.
- 1 39" x 41" area under a hole cut in this neighbor's bathroom floor had been excavated and subsequently filled.

### · Other significant facts

- Other significant facts

  A small, white plastic plate with three pentagrams hand drawn on top of light green paint was found by the archaeologists in the stratified dirt in the play yard.
  - Per historical archaeologist, pentagrams were hand drawn by an adult and not part of the manufacturer's design.
- Many other artifacts found, whose analyses will be released upon completion of
- No doorknobs were on Classroom 3 door, only a dead bolt lock.
- Each classroom had on and off light switch labeled "Fire Alarm." System did not connect to fire station but was used as an alert within the school.
- More than 2000 artifacts were found under the school floor, including over 100 animal bones.

Due to severe time constraints our archaeology team was unable to further explore the extent of the tunnel networks. Above documented through photographs, notes, graphs, diagrams and charts. For more details call (213) 854-5172.

## CONTROL OF ELECTIONS THROUGH THE USE OF ELECTRONIC VOTING MACHINES

#### Ted L. Gunderson for U.S. Congress Dist. 1 P.O. Box 18000-259 Las Vegas, NV. 89109 702-650-5676 Fax 650-3674

Mr. Dean Heller, Secretary of State Capitol Complex Carson City, Nevada 89710

September 19, 1996

Dear Mr. Heller,

I am the former Senior Special Agent in charge of the FBI of the Los Angeles Division (retired) and the Independent American Party Candidate for U.S. Congress, District 1, Las Vegas, Nevada.

The Las Vegas Sun newspaper on September 10, 1996 (5A) in an article entitled "Errors at polls prompt request for new vote", Kathryn Ferguson, Registrar of Voters, stated "There were enough errors to have affected the outcome of the race". The internal audit reported 40 errors in 29 precincts of Assembly district one. At the September 17, 1996 County Commission meeting Ms. Ferguson reported that 13 voters voted in the wrong party i.e. Democrats voted Republican and vice versa, and in the wrong precincts. To avoid the risk of public scrutiny of a flawed recount in Assembly District 1, I believe Kathryn Ferguson quickly offered a re-election instead.

Because these machines are so susceptible to so many errors and misuse, I am very concerned about the Sequoia Pacific Voting machines and strongly oppose their use.

Regarding the Sequoia Voting machines, Howard J. Strauss a nationally recognized voting computer expert stated, "Voters may find themselves with a system that is unreliable, unpredictable and unauditable. This means you may find machines not working when you want to vote, you may find voting difficult and confusing, your vote may not go to the candidate you voted for and it may be impossible to figure out what went wrong — or even if something went wrong." This is the same equipment that Clark County is using and Ms. Ferguson has confirmed that numerous voters voted in the wrong party, the wrong precinct and were denied their votes through errors.

I have information to prove the election was flawed in connection with the primary election held in Clark County, Nevada on September 3, 1996:

1. The Registrar of Clark County, Kathryn Ferguson ordered approximately twelve thousand absence ballots opened prior to election day in violation of NRS. 293.333 which specifies that the absence ballots are only to be opened "On the day of an election" and only "in the presence of a majority of the election board officers". This law was repeatedly violated starting five days prior to the Primary election. The Registrar of Voters of Washoe County was recently removed by the Secretary of State for a nearly identical violation, and this violation also warrants her removal for tampering with the ballots. The law was written to protect the integrity of the ballots, and Kathryn Ferguson has repeatedly compromised this security.

- 2. The Registrar of Clark County, Kathryn Ferguson, did not keep a separate count of absentee ballots of each candidate in violation of NRS 293.385,(4) which states "The absent ballots must be reported separately from the regular vote." This regulation was mandated in 1993 in SB. 250 to prevent absent ballot tampering by showing the exact vote count and percent of the absent ballots for each candidate.
- 3. The Clark County Commissioners did not put the Sequoia AVC purchase up for "open public bids" as required by the Government Purchasing Act NRS 332.045. Information has been received that a representative of Sequoia Pacific provided Clark County with the plan on how to circumvent the "open Bidding Laws" by tightly tailoring the request for only AVC characteristics to eliminate all known competition, and then claimed a "sole source exclusion."
- 4. The Sequoia Pacific Voting machines used in the Clark County elections, are illegal because they were never certified as required by Nevada Law. They are a model "D" using Ver. 5.0 firmware. The Sequoia certification papers signed by Cheryl Lau on November 11, 1993, were for a previous model 4.1 which was substantively different.

The official certification procedure of Nevada states:

"STEP THREE: . . . If the system is found to meet all statutory requirements, the Secretary of State will issue a Certificate of Approval. Such certificate shall be subject to the adoption of any further certification standards which may be approved by the Nevada Legislature, and shall be deemed invalid if substantive changes are subsequently made to the system." (italics minc)

NRS 293.105, (1) states that the voting system must first be:

- (a) Approved by the Secretary of State pursuant to subsection 2; or
- (b) Specifically authorized by law."

The Sequoia Pacific AVC model D, Ver. 5.0, has never been certified in Nevada and the current certification documents signed by former Secretary of State Cheryl Lau apply only to the previous model 4.1 and therefore the Clark County elections are illegal. Kathryn Ferguson has publicly stated at the September 9, 1996 Primary election certification meeting of the Commissioners that she will reconfigure the Sequoia to use 4 cartridge readers to speed up the ballot count, and intends to install new upgrade software prior to the November General election. Ms. Ferguson apparently does not intend to have the new software and the AVC's re-certified in accordance with Nevada Law and per NRS 293B.105.

At the July 12, 1996 Sequoia early voting test, it was announced that they were using a software program that processes the votes called "Teamwork" that I believe has never been certified for elections in Nevada. All software must be tested and certified by the State <u>prior</u> to use in an election. Clark County cannot indiscriminately use uncertified and untested hardware or software in Nevada's elections.

5. It is not possible to recount the votes using the Sequoia AVC machines because there are no physical records of the voters ballots created prior to easting their votes to document the voters original intent. You cannot pretend to do a recount when there are no original votes to recount.

The use of a voting system that does not use physical ballots that can be recounted, violates the Nevada Constitution Art. 1, sec. 2 which states "All elections by the people shall be by ballot," and to date the people of Nevada have not revised the Constitution to allow the use of electronic voting machines to replace their ballots. This provision is intended to protect the rights of the public to be able to watch the actual counting of the votes in public and as mandated in NRS 293.363.

- 6. Kathryn Ferguson has instituted a policy that prohibits citizens from observing the counting of the votes and ballots at the polling place and violation of NRS 293.365, 293.365, 293.365, 293.3602, 293.3606, 293B.330, 293B.335, 293B.353. The public has been repeatedly intimidated and threatened with arrest for peacefully trying to observe and film the counting of the votes, closing of the polls and observing the Canyass.
- 7. Kathryn Ferguson has repeatedly violated the Constitution regarding the freedom of the press by preventing members of the non-mainstream media from filming the election process as also provided for in NRS 293.274, (3). Under Color of Law, Ms. Ferguson with the assistance of deputy district attorney Mary Ann Miller, prohibited reporters with appropriate credentials from covering the election process, while allowing friendly press full access. On September 3, 1996 Mary Miller prevented a reporter from entering the poll at the Flamingo Library at 7:05 pm stating that she didn't have to state the law, she was following election department policy, which supersedes the law.

I brought the above violations to the attention of the Clark County Commissioners on September 17, 1996 and have information that other candidates wanted to speak before the Commissioners on these issues, but were intimidated by persons saying they would be subjected to financial ruin if they appeared and spoke out.

I am forwarding a copy of this letter to the Attorney General Del Pappa and the FBI because of the possibility of one or more local and Federal criminal election law violations.

I urge you to take immediate action as you did in Washoe County, to de-certify these Sequoia machines, and remove Clark County Registrar of Voters Kathryn Ferguson, from office for malfeasance and gross negligence. I request that you respond to these formal charges as soon as possible.

### Cost of using the Sequoia Voting Machines.

- The 1300 Sequoia AVC voting machines can only handle half of the voters of Clark County, approximately 200,000 of the 450,000 (45%) of registered voters on election day.
- 2. There will be long lines on election day, and the vote count will be late due to the inefficiency of the system, and the final vote count won't be in until morning.
- 3. The cost of Kathryn Ferguson's fiasco will be nine times or 900% greater than the optical scan system used in Reno which will have their election results in by 9:30 pm on election night.

### Here's the math that Kathryn Ferguson forgot to do.

How many voters can the Sequoia AVC process on election day at a polling place?

#### Lets do the math

I AVC machine can process approximately 15 voters per hour, it taskes an average of 4 minutes per voter divided into 60 min. = 15 voters per hr. If 30 voters get in line to vote on 2 machines, it will take 1 hour. Typical precincts have 500 voters, which will take (500 voters /30 per hr) = 16.6 hrs. There are only 12 hrs available on election day. Therefore, long lines and perhaps 50% of voters will be unable to vote.

 On election day, the Sequoia AVC can only process approximately 200,000 voters, or approximately half of the voters of Clark County's, 450,000 registered voters.

The polls are open 12 hours. 12 hours X 15 voters/hr avg. = 180 voters per day Total of 1125 AVC machines X 180 voters = 202,500 maximum capability.

80% voter turnout of 450,000 registered voters = 360,000 total voters

Less 25,000 early and absentee ballots = 335,000 election day voters

202,500 divide by 335,000 = 60% maximum turnout due to max capacity of AVC.

3. The cost per vote will be nearly 10 times more than other cities, such as Reno.

Compare Reno, (Washoe County) vs. Las Vegas, (Clark County)

Reno: estimated cost of election = \$352,000 + \$600,000 for optical scan system. Reno (Washoe Co.) has approximately 225,000 registered voters. Estimated cost per voter = \$352,000/225,000 = \$1.54 per registered voter. 80% num out = \$1.54.8 = \$1.92 per voter

Las Vegas (Clark Co.) estimated cost of elections = \$4,000,000 + \$7,500,000 for Sequoia AVC. Las Vegas (Clark Co.) has approximately \$50,000 registered voters. Estimated cost per voter = \$4,000,000/\$450,000 = \$8.88 per registered voter \$50% turnout = \$.88/.5 = \$17.76 per vote.

Compare \$1.92 for Washoe Co. to \$17.76 for Clark County, This amounts to over 900% greater cost per vote than Washoe County.

To top this off, the Sequoia cannot process absentee ballots as the Optical scan, therefore Clark County will have to commune to use the old Votamatic punch card system at additional cost and additional manpower.

Obviosly, County Manager, Pat Shalmy Registrar of Voters, Kathryn Ferguson "didn't do the math" for us taxpayers, lets do our math, for them . . . by firing them now.

MF # OORE of Pennsylvania. Mr. Chairman, I move to strike on the last word. I am in favor of this paragraph in the Navy appropriation bill, because I think the country ought to be Navy appropriation only because invasion; but I think the Congress ought to be careful about encouraging "rumors of war" when war has not actually been declared. Perhaps it would when war has not actually been declared. Perhaps it would be safe to leave this matter to the President of the United States and to those who have direct knowledge upon the subject. I call attention, however, not only to these false reports of the Housetonic and about the California, but the stemuship Philadelphia was reported sunk since the President was here, and yet the next day, after these reports had gone over the country like wildfire and everybody got excited about Philadelphia, which naturally attracted interest in that great city and in the State of Pennsylvania, we found the Philagreat city and in the Sinte of Pennsylvania, we found the Philadelphia had safely arrived in port, so that report was also in event. Now, whether by design or not I do not know, but it seems that most one these false reports come from London. Mr. MOORE of Pennsylvania. I am coming to that. The dispatches have made it appear that because of the loss of George Washington, an alleged American citizen, we are now in position to declare war against German. This morning's ni position to occurre war organist Germany. This morning's papers have headlines something like this: "Death of American or wrecked Turino aborted to London. this country. [Applianse.]

Mr Chairman, I regret to say it, but we are gradually turning over the business of Congress, turning over all our constitutional rights, turning over our powers delegated by the people, to a lot of editors, theorists, and college professors who are not capable of conducting our affairs and to whom we should not abdicate.

Mr. GARDNER. Will the gentleman yield? Mr. MOORE of Pennsylvania. I will yield to the gentleman from Massachusetts after I have disposed of George Wash

ington. [Laughter,] The CHAIRMAN. The time of the gentleman has expired. Mr. MOORE of Pennsylvania. All I can say then is that the papers report this afternoon that George Washington, the so-

called American, is a Brillish subject; that 'is-all', [Applause.]
Mr. Chairman, under leave to extend-lassish to-say that so many runors and reports of an example and a started have appeared during the last few days that even the President, who certainly is as much concerned as any other-citizen over the struction that confronts us, should take noticey. We are dealing with a serious problem that invites the greatest deliberation. We ought not to be made the pawes of designing men in our own country or of new foreign rower that would show into a war. country or of any foreign power that would drag us into a war for selfish purposes. When our President has made up his mind that American honor is at stake and that we must enter upon a war to uphold it, I have no doubt he will find cordial support in the Congress of the United States, but the President has not yet indicated to Congress that the point has been reached where a declaration of war has become necessary. Until the President does come to this body with such information and facts as may warrant further action by Congress, it may not be well to agravate the situation by giving too much credence to the untruthful rumors that have been bandled about with the eviuntruited rumors that have been bendled about with the evideut purpose of finding some reason for proveking a deciantion

DAVID ROCKEFELLER, Internationalist billionaire, Humanist, CFR kingpin, founder of the Trilateral Commission, World Order Godfather

Reckefeller said:

"We are grateful to The Washington Post, The New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years."

He went on to explain:

"It would have been impossible for us to develop our plan for the world if we had been subject to the bright lights of publicity during those years. But, the world is now more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national autodetermination practiced in past centuries",

(It is not reported if the attendees kissed his ring - or anything else - after their leader bestowed his blessing on those in attendance. Actually, we could ask Governor Clinton or Dan Quail, both of whom were there Bush and Clinton are Bilderbergers, Internationalists, and their goals are exactly the same for America.

Let us repeat....CLINTON'S, BUSH'S, AND PEROT'S, PLANS FOR AMERICA ARE VIRTUALLY IDENTICAL. The Republicans and Democrats goals for America are virtually identical. They both are taking our nation into global government.

Globalist Mr. Dan Quail was there as the June 91 meeting being sized up as a possible Bilderberger U.S. Presidential contender for 1996. The major media's job is to convince Americans that the Republicans and 4 emocrats are on opposite sides and fighting each other.

# Mogul Distorts Rothschild Death;

Rupert Murdoch ordered editors world wide to "spike" the story of how one of the world's wealthiest men supposedly killed himself.

AT THE BOTHSCHILD

EXCLUSIVE TO THE SPOTLIGHT
BY SASHA RAKOCZY

French police have determined that' Amschel Rothschild, heir to the fabulous Rothschild banking fortune, was murdered, according to wellplaced European sources.

But, French Prime Minister Jacques Chirac has ordered police to close their investigation. Media outlets worldwide have ignored these mysterious developments. Some have reported the death was a suicide, other outlets disregarded the death altogether.

As if obeying an invisible choirmaster, the world's competing news organizations silenced their strident sensationalism this month to cover up the mysterious death.

In the United States, newspapers controlled by Rupert Murdoch, the foreign-born owner of the world's largest media empire, either studiously ignored reports that Rothschild had met a violent end, or relegated it to the back pages as a mere "heart attack."

A SPOTLIGHT inquiry has established that Rothschild, 41, a billioning investment banker and a noted sportsman in excellent health, was discovered lifeless on the floor of the sportsman of his suite at the luvniture of his suite at the luvniture.

rious Bristol Hotel in Paris on July 8 at 7:32 pm.

Police found that he had been strangled with the heavy cord of his own bathrobe. One end of the cord was attached to a towel rack, as if to suggest that Rothschild's violent death was self-inflicted.

"The [French] crime scene investigators never called it 'suicide,' " reporter Theirry de Segonzac told The SPOTLIGHT in a telephone interview from Paris. "After photographing the body, one of the detectives gave the towel rack tied to the body a strong tug. It came right out of the wall."

### Bank heir Rothschild hangs himself

Associated Press

PARIS — Amschel Rothschild, the man many believed would be the prestigious Rothschild Bank's next leader, hanged himself in a Paris luxury hotel, police said Thursday.

Rothschild's body was found by a cleaning lady Monday in his room at the Hotel Bristol, not far from the presidential Elysee

Palace.

Rothschild, 41, was widely expected to take over the British merchant bank N.M. Rothschild and Sons.

Police officials, speaking on condition of anonymity, said the banker hanged himself. The bank refused to comment on the death.

Rothschild's wife Anita issued a statement Thursday saying the family was "completely shocked and devastated."

"Amschel's death was totally unexpected," Anita Rothschild said. "We shall not be saying anymore and would ask that everyone will respect the grief and deep sadness of our three young children and myself."

Rothschild was appointed chief executive of Rothschild Asset Management in 1990, later becoming its chairman. The moves led to speculation that he was being prepared to succeed his cousin Sir Evelyn Rothschild as chairman of the family bank.

The Rothschild family gained prominence by financing such projects as the construction of European railroads and the British military campaign that led to the final defeat of Napoleon at Waterloo in 1815.

# Police Say Amschel Was Murdered

Had Rothschild really attempted to hang himself from that rack, he would have ended up with nothing worse than a couple of holes in the wall, de Segonzac said.

There was no suicide note, no discernible cause or reason for a finding of suicide, knowledgeable sources say. Rothschild, an athletic and imperious figure in early middle age, was a renowned race car driver and the husband of Anita Guinness, herself one of the world's wealthiest heiresses. The couple had three children who spent most of their time on the family's baronial estate in Suffolk. England.

Rothschild had arrived in Paris to take over one of the many family consortium's French assets—management operations which were to be merged with N.M Rothschild's London-based investment banking center.

"Far from being 'troubled,' Amschel Rothschild's star was on the rise and the relished his success," says an executive at Keefe, Bruyetter and Co, a respected Wall Street monitor of the financial-services industry. "I don't believe for a moment he suddenly went and killed himself. There's much more to this story."

But with frantic speed—within an hour after the body's discovery—authorities and news executives in both France and Britain launched an unusual joint offensive to preempt a public inquiry or a press investigation into the circumstances of Rothschild's death.

death. FUP CENT
"Murdoch sent a hotline fax to his
600-odd editors and news managers

around the world, ordering them to report Amschel's death as a heart attack, if at all," said British broadcast reporter Ion Gooding. "No one around here has ever seen such preseure to kill a front-page story. But in the end, the cover-up was complete."

# Antigovernment groups to rally in Washington over rights

By Richard Keil

WASHINGTON — Several unitgorernment groups, including invate militias, are holding a relly in Washington this weekend to draw attention to what they say is an erosion of Americans' constitutional rights

It will be the first high-profile raily in the capital by antigovernment groups since last year's Oklahoma City hombing

"We want to make people aware of the dangers that the Constitution and the Bill of Rights are in, and

From it is getting worse," said Joseph Circy director of the Committee on 1776, which focuses on opposing gan control

Organizers of the "Rally for the Bill of Rights," scheduled for iomornow and Sunday, hope to attract 15,000 people. The gathering will feature speakers who have written anti-Sentic literature, and others who push theories of a governmental conspiracy to undermine Americans rights.

The group held a similar rally in June 1995, just three months after

the Oklatfoma City trage by By then, bombing suspect filmothy McVeigh's schipathy of militia groups and bear well-documented, something Circy harrs helped keep attendance down 1,7000.

A news release moded by organizers to media outlets about this year's rally states that its organizers oppose high taxes, "hireaucratic overregulation" and gun control. It

also warns of computerized highway detection systems designed to 'transmit your driving habits back to the state."

Some panelists — including former FBI agent Ted Gunderson — are active proponents of these various government conspiracy theories. Others, such as Larry Pratt, head of Gun Owners of America, will speak out against gun control.

Other speakers include Eustace Mullins, an author of books on supposed Jewish plots.

"He has published a great deal of

anti-Semitic conspiracy material," said Angie Lowery of the Southern Poverty Law Center, a group that monitors racist and hate groups. "His writings proclaim that Jews are behind a worldwide conspiracy to take over this country, to run the U.N., and to control the world's financial markets."

Corey, for his part, insisted that his group is not a militia organization, and that those groups represent "a very small minority" of the groups he expected to attend.

He also noted that two of the mili-

the Georgia Defense League and a New England-based militia — are headed by blacks.

"You cannot defend the Bill of Rights and the Constitution and be racist or anti-Semitic," he said. "It just doesn't work that way."

The other main sponsor of the event is Citizens Against Legal Loopholes, a San Diego group formed in 1993 to protest federal hankruptcy law and that now operates a mail-order business marketing conservative videos and books.

### Interview With The Grand Juror Who Wouldn't Shut Up: The Oklahoma City Bombing Case - Part Two

### BY JON RAPPOPORT

Author of Oklahoma City Bombing - The Suppressed Truth

In the aftermath of the Oklahoma City bombing tragedy on April 19, 1995, independent researchers have begun to lift the lid on very troubling details of the crime. As in the JFK assassination, disturbing evidence of a different sort of murder scenario from the official version has emerged; and typically it has been relegated to the "conspiracy file" by the mainstream press. Very serious questions about bombs other than the ammonium nitrate truck bomb have surfaced. McVeigh himself in some eyes begins to appear as the dupe, the patsy left holding the bag. Key stories about federal law enforcement agencies having advance warning of a bombing in Oklahoma City are gaining credibility. Researchers on the scene in Oklahoma City are talking about the FBI intimidating witnesses and thereby shaping a false version of events. The Grand Jury itself which has brought indictments against Tim McVeigh and Terry Nichols has come under fire for ignoring other potential suspects.

Are we being treated to what is basically a gigantic government press release, a foreshortening and distorting of the case?

On December 14, 1995, I interviewed Hoppy Heidelberg, a grand juror in the Oklahoma City case. Several months earlier Heidelberg had, off the record, engaged in a conversation with Lawrence Myers of Media Bypass magazine. Subsequently thrown off the Grand Jury by Judge David Russell for allegedly going public in the subsequent Media Bypass article, Heidelberg is very critical of the government's refusal to pursue murder suspects beyond Tim McVeigh and Terry Nichols. Which suspects? Start especially with the notorious John Doe 2

Grand juror sare not permitted to reveal details of legal proceedings on pain of contempt-of-court citation and imprisonment. Heidelberg has now risked being accused of this, because he feels his Grand Jury was steered away from evidence that could implicate the government itself in the bombing.

Has such a straightforward rebellion by a grand juror ever taken place before in a high profile American trial? After the Metha Bryans article appeared, the major media gave the Heidelberg story one or two days and passed on to more routine matters: car accidents, murders, storms and potential medical breakthroughs

Meanwhile Heidelberg has wrestled with his discovery that grand juries are basically run by the prosecuting attorneys who herd jurors like sheep in bringing indictments. (Indictment being the end product of a grand jury, the defendant is then bound over for trial.)

However, with a little research Heidelberg has also discovered that grand juries are potentially vital hodies in which juriors are legally permitted to actually bypass prosecutors and question witnesses directly, find and call witnesses and in general investigate the crime at hand.

Such a citizen-body, if honored -- not sidetracked and intimidated by prosecutors and judges -- would, of course, add a whole new dimension to the American legal scene. In practice though, these grand juries

this guy as a CIA type operator. I found out later he was CIA although he had lots of impressive credentials. His testimony was very effective, but the whole thing was bogus. A dog and pony show. Now this is hypothetical. If you want to convince someone that ANFO [ammonium nitrate plus fuel oil] is powerful, show a film of a truck and blow the hell out of it and then say you used only five pounds of ANFO to do it. But how could the grand jurors be sure that it was only five pounds? All the demonstrations the prosecution used were like that. Obviously to dupe an unsophisticated audience [the Grand Jury]. But it's easy to see through this.

### How did you feel when you first got on to the Grand Jury?

I didn't go in trying to cause trouble. I tried to get along. I wasn't wanting to be kicked off the Grand Jury I wanted to hang in there longer. As it turns out I wouldn't have heard more about Oklahoma City, anyway. They were done with that

You've had attention from the mainstream press. You were on Good Morning America and The Today Show.

Everybody's interviewed me. But they want me to turn out to be a nut. When I don't come off that way, they don't print the interview, they don't do the story.

### Who doesn't do the story, for example?

The New York Times. I've had contacts with them. And with Time, Newweek, CBS. They don't want to give me any stature. I was supposed to do 20 20, Dateline, a whole bunch of them. But after my appearance on Good Morning America and The Today Show, they ignored me, Even my own governor in Oklahoma [Frank Keating] was calling me a nut for a while. Then that didn't work because people know me. So he invited me to his mansion; but I didn't go.

### There are so many uninterviewed people in this story.

It would seem to me that those rescue workers who found unexploded bombs in the federal building there's got to be somebody who knows that -- it wasn't a hoax. They found two more bombs that didn't explode in there. Somebody somewhere can verify this. "Yeah, we found those bombs and reported it and gave them to whoever."

### Unless they have been told to shut up about it. Unless this is more manipulation of evidence.

Yeah Even with the Grand Jury witnesses, you could see they didn't remember everything they remembered. Their memories had deteriorated. (laughs) The FBI does this to people. "Your remembering would be counter-productive to the investigation. It's your patriotic duty to forget." I got to hear tape interviews with secret witnesses occasionally [witnesses already influenced by the FBI]. It takes a tremendous amount to get them to tell what they really know because they think that they'll screw up the government's investigation. But when some real witnesses the media found who had ID'ed McVeigh at the bombing scene didn't show up at the Grand Jury . . . How do you explain their absence? It was a dog and pony show. The prosecution spent a lot of money bringing in witnesses who knew nothing about the bombing. How many witnesses do you need to bring in to say that McVeigh was at gun shows. Not ten witnesses! That's irrelevant! Many people go to gun shows and don't blow up buildings. They [the witnesses! That's irrelevant! Many people go to gun shows and don't blow up buildings. They [the prosecution] had this Grand Jury to the point where jurors were asking "How can gun shows be legal in the U.S.?" These witnesses were used to get across the idea that McVeigh, because he went to gun shows, was a bad guy. But we heard nothing from real witnesses who saw McVeigh at the crime scene.
